# ILLINOIS CROP REPORT

FOR

## MAY 1, 1904

### SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE,  
SPRINGFIELD, May 1, 1904.

The information contained in this report as to the acreage of crops and number of head of live stock was obtained from the reports of assessors made to this Department as required by law.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past twenty-eight years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number nearly six hundred, and are so distributed over the state as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

#### Winter Wheat.

The area of winter wheat winter-killed or destroyed by floods the past season was 10 per cent of that seeded last fall, thus leaving at this date 1,343,146 acres for harvest. In northern Illinois the proportion destroyed was 9 per cent of that seeded, and in southern Illinois 7 per cent, but in the central division of the State 14 per cent is reported destroyed.

The past season has been in some respects peculiarly unfavorable for wheat. An exceedingly dry fall, during which considerable of the seed failed to germinate, was succeeded by a long, cold winter, and that by an unusually late spring. So little growth had been made by the time winter set in that the plant was not in the best condition to withstand the cold, but the greater part of the injury was done towards spring, by the alternate freezing and thawing, and the backward spring prevented

376219

the growth of the plant, so that its May 1 condition is but 80 per cent of a seasonable average. This is 12 points below the 1903 condition, and 5 points less than that of 1902.

But three counties report damage by Hessian fly, Mason, Jackson and Randolph, and that to a very slight degree.

In a number of counties where the wheat was winter-killed or drowned out, the land will be planted to corn.

In southern Illinois the wheat area is reduced by the effort of farmers to get rid of chinch bugs. A concerted effort in this direction is the most promising means of getting rid of this pest, and the sooner farmers learn this, and cultivate other crops more extensively, the better it will be for them.

#### Spring Wheat.

The area devoted to spring wheat this year is 95 per cent of that of 1903, when 73,269 acres were seeded, over three-fourths of it in northern Illinois.

The May 1 condition of spring wheat is 83 per cent of a seasonable average.

#### Old Wheat.

The 1903 wheat crop was much below the average, and the proportion of it left in producers hands May 1 of this year, is as low as ever reported, 8 per cent of the entire crop. In other words, but 1,263,791 bushels remained in first hands May 1, 1904.

The following table gives the amount of old wheat in first hands the first of May, since and including 1880:

YEAR PRODUCED.	Crop in bushels.	Per cent. crop on hand following May 1.	Amount crop in producers' hands following May 1.	Surplus wheat above seed and consumption at harvest.	Deficit at harvest.
1880.....	56,508,309	15	8,476,246	39,851,883	.....
1881.....	22,374,163	13	2,924,039	5,765,414	.....
1882.....	52,323,261	15	8,174,634	36,214,133	.....
1883.....	20,374,572	15	3,208,358	4,575,152	.....

1903.....	16,118,300	8	1,263,791	.....	5,539,833
Average .....	329,146	13	647,565	13,809,554	577,028

#### Rye.

Of the 87,916 acres seeded to rye last fall, 4 per cent is reported destroyed, thus leaving 83,950 acres for harvest.

The May 1 condition of the crop, 89 per cent of a seasonable average, is unusually low, but is very uniform throughout the State. In northern Illinois it is 89 per cent of an average, in central Illinois 91 per cent, and in the southern division of the State 87 per cent.

## Oats.

A reduction of 9 per cent in the oat area this year as compared with 1903 is reported. This is caused by the late spring, which made it impossible, or foolish, to sow oats while the ground was so cold and wet. It is believed that a large proportion of the area which was intended for oats early in the season will be planted to corn. In northern Illinois the deficiency in area is but 1 per cent, and in central Illinois 9 per cent, but in the southern division of the State a deficiency of 17 per cent is reported.

The May 1 condition of the crop is 78 per cent of a seasonable average, the poorest condition reported for a number of years. In the northern division of the State the May 1 condition is 82 per cent of normal, but in central and southern Illinois only 76 per cent.

## Barley.

The area devoted to this crop in northern Illinois this year is but 1 per cent less than that of 1903, but its condition is 19 per cent below normal. In central Illinois both area and condition are 100, but in southern Illinois the area is 8 per cent less than last year, and the May 1 condition of the crop 9 points below normal.

## Old Corn.

About the usual proportion of old corn is in producers' hands May 1, 30 per cent of the entire crop, or 83,813,726 bushels. In northern Illinois there were 41,634,510 bushels on hand, in central Illinois 34,985,775 bushels, and in the southern division of the State 7,193,441 bushels.

By far the largest amount of corn in first hands on May 1 is reported from Livingston county. This county produced the largest crop of any county in the State last year, 10,594,818 bushels. Of this amount 59 per cent, or 6,250,943 bushels is in producer's hands at this date.

The percentage of the entire crop unsold on May 1 ranges from 36 per cent in the northern division of the State to 21 per cent in the southern division, central Illinois reporting 28 per cent.

The following table gives the amount of old corn in the producers' hands May 1, the past twenty-five years as well as the extent of the crop produced each preceding year:

YEAR PRODUCED.	Crop.	Per ct. corn on hand following May 1.	Bushels corn in producers' hands following May 1.
1879	305,913,277	32	99,229,889
1880	250,697,036	28	71,929,343
1881	174,491,706	21	37,445,964
1882	179,471,729	24	43,450,857
1883	186,583,558	21	39,478,621
1884	207,556,662	24	50,102,264
1885	230,922,298	24	57,047,027
1886	182,755,053	24	43,346,028
1887	129,537,603	18	23,573,279
1888	277,726,451	33	92,584,238
1889	247,980,589	36	90,503,175
1890	164,512,020	20	32,653,868
1891	217,982,050	35	75,969,599
1892	137,540,285	32	45,599,187
1893	167,687,971	24	41,064,384
1894	205,637,061	27	56,571,008
1895	267,423,008	39	104,806,730
1896	288,616,324	46	132,632,364
1897	239,360,474	38	92,134,456
1898	215,222,825	32	68,695,412
1899	259,618,956	27	69,855,366
1900	305,207,391	27	83,300,481
1901	183,792,241	21	38,776,281
1902	320,977,301	35	112,394,471
1903	275,735,599	30	83,813,726
Average	224,917,979		67,478,321

**Meadows.**

The area in meadows in southern Illinois this year is but 1 per cent less than a year ago, but in both the northern and central divisions of the State there is a deficiency of 5 points.

The past winter was very hard on clover, much of which was winter-killed, thus causing the reduction of area.

The May 1 condition of meadows is but 83 per cent of normal in northern Illinois, but improves slightly further south, central Illinois reporting it as 87 per cent and the southern division of the State 90 per cent.

In Fulton and Brown counties much of the old clover land will be put into corn and barley. Montgomery and Williamson counties report a tendency to change from cultivated crops to grass.

In DuPage county the increased use of corn-fodder is reducing the area of mowing land.

**Pastures.**

The area devoted to pastures this year is about as large as usual, 98 per cent of normal. In the northern and southern divisions of the State it is 99 per cent and in the central division 97 per cent.

The cold spring has prevented the growth of pastures, their May 1 condition being but 83 per cent of a seasonable average. In northern Illinois their condition is but 79 per cent of normal, and in central and southern Illinois 85 per cent. Except in a few of the southern counties pastures are too backward for grazing.

**Spring Plowing.**

But little more than half as much spring plowing has been done by May 1 this year as usual. Ordinarily about two-thirds of the plowing is done by May 1, but this year only one-third is reported. More progress has been made in northern Illinois than elsewhere in the State, 47 per cent having been done. In central Illinois only 22 per cent was done before May 1, and in the southern division of the State 29 per cent.

The condition of the soil varies greatly in different localities, some reporting that it breaks up well, and others that it is tough and hard.

**LIVE STOCK.****Horses.**

Nearly as many horses as on May 1, 1903, are reported this year, 95 per cent, and the proportion varies very little throughout the State. The greatest increases are noted in Jackson county, 15 per cent, and Massac and Perry counties, which each report an increase of 10 per cent as compared with last year.

A little sickness is reported among horses in Iroquois county and a good many horses have died in Peoria and Clay counties. Distemper is reported from Whiteside, Christian and Greene counties, catarrhal fever from Cass, and pinkeye from Morgan, Shelby and Johnson counties. In Lake county about 25 per cent of the mares have lost their colts, from no apparent cause. With these exceptions the general condition of horses is good, 97 per cent of normal.

### Mules.

A deficiency of 5 per cent in the number of mules in the State this year as compared with 1903 is noted. In northern Illinois the deficiency is but 1 per cent, and in the other grand divisions 7 per cent.

Their May 1 condition is 97 per cent of normal.

### Cattle.

In northern and southern Illinois the number of cattle reported this year is 95 per cent of that for 1903, but in the central division of the State there is a deficiency of 9 per cent, making the number for the State 94 per cent of that of last year.

Their May 1 condition is 95 per cent of normal, being 95 per cent in the northern division, 99 per cent in the central and 90 per cent in southern Illinois.

In most parts of the State it has been impossible to put stock on pasture up to this date, and consequently they are rather thin in flesh.

There has been some pinkeye among cattle in Kankakee and Morgan counties, and some cases of clover bloat in Cass. There has been some black-leg among calves in Scott county. A few two-year-old steers brought to Shelby county from Texas last fall, and dehorned, have recently died.

### Dairy Cows.

In northern and central Illinois but 2 per cent fewer dairy cows, and in southern Illinois 1 per cent fewer than last year are reported. Their May 1 condition is 95 per cent of normal, northern Illinois 96 per cent, central Illinois 97 per cent, and the southern grand division 93 per cent.

### Hogs.

But 90 per cent of the number of hogs on hand last year is now reported. In the following counties only is there any increase: Kane, 2 per cent, Lake 1, Christian 1, Clay 1, Clinton 2, Wayne 2, Franklin, Union and White counties 10 per cent.

The May 1 condition of hogs is 95 per cent of normal in central Illinois, and 97 per cent in the northern and southern divisions of the State.

In McHenry county many young pigs died from cold and in Mercer county many hogs were injured from eating too much mouldy corn. Hog cholera is reported from Macoupin county.

There has also been some sickness among hogs in Warren and Clay counties, and in the latter county a good many sows are losing their pigs.

### Sheep.

In northern Illinois the number of sheep this year as compared with 1903 is 94 per cent, and their May 1 condition 98 per cent of normal. In the central and southern divisions of the State their number is 91 per cent of that of last year, and their condition 95 per cent of normal.

A good many sheep have died in Clay county from some unknown disease.

## Fruit.

The usual cry as to all the peaches being killed is heard this year.

There is no doubt but that many, perhaps the greater part of them, are dead, but it is likely a small quantity will be produced in Illinois this year. Other fruit has also suffered in this way, plums and pears being killed in some counties, and also apples and cherries. Apparently blackberries have suffered more than other small fruits, though strawberries are also mentioned. In Pulaski county the early strawberry bloom was killed by the late frosts.

## General Farm Notes.

Beekeepers generally suffered great loss from the cold winter, a very large number of bees being winter-killed. In the fruit-growing counties, where spraying is used to kill insects, the insecticides used are very destructive to bees.

No very material change in the area of crops is reported but some minor ones are noted: In Cook county the area in Irish potatoes is doubled by many planters this year. Some alfalfa and cow peas will be planted in Marshall county, and in Cumberland and Jasper the area of broom-corn planted will be smaller than last year.

Some corn has been planted in Union county. In Kankakee county and elsewhere, more fodder is fed each year, and silos have been erected in Hancock and Pike counties. In Winnebago more trees were girdled by rabbits and mice than for many years.

One correspondent suggests that where sweet clover is near a field, alfalfa will grow, the latter becoming inoculated with the sweet clover bacteria. If, upon thorough trial, this proves to be the case, it will solve one of the important problems in regard to the production of alfalfa in this State, and at the same time demonstrate that sweet clover has an economic reason for being.

## Wages Paid Farm Hands.

The supply of farm hands more nearly equals the demand this year than last, though there is still a shortage of 13 per cent. In a few instances there is reported a tendency to return to the land, though in a very slight degree.

In northern Illinois the supply is 87 per cent of the demand, and in central Illinois 89 per cent, but in the southern division of the State but 83 per cent.

The difference between the wages paid this year and last is so small as to be hardly noticeable.

The average wages paid farm hands during the past twenty-five years in the three grand divisions of the State, are given in the following table:

DIVISION.	PER DAY.		PER MONTH.	
	With board.	Without board.	With board.	Without board.
Northern .....	\$1 00	\$1 30	\$20 20	\$27 90
Central .....	85	1 10	18 15	24 60
Southern .....	65	90	14 70	20 65
Average .....	\$0 85	\$1 10	\$17 70	\$24 40

The wages paid farm help in the three divisions of the State, during the past twenty-five years, is given in the following tables:

## Northern Division.

YEAR.	PER DAY.		PER MONTH.	
	With board.	Without board.	With board.	Without board.

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent., is recorded 110; a decrease of five per cent. is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years, will be found to closely approximate the assessors' returns.

W. C. GARRARD,

*Secretary.*

# ILLINOIS CROP REPORT

FOR

## DECEMBER 1, 1904.

---

### SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE  
SPRINGFIELD, December 1, 1904

The information contained in this report as to the acreage of crops and number of head of live stock was obtained from the reports as assessors made to this Department as required by law.

The data in regard to yield per acre, price of crops and value of crops and live stock was obtained from crop correspondents, who number nearly six hundred, and represent every section of the State.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past twenty-eight years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

#### WINTER GRAIN.

##### WHEAT.

Owing partly to the dry weather at seeding time, and partly to the loss by chinch bugs for several years, the area seeded this fall is 4 per cent smaller than a year ago, the total area reported being 1,429,000 acrs. A very small area is reported from Northern Illinois, only 33,000 acres. Central Illinois reports 639,000 acres, and the southern division of the State 757,000 acres.

The December 1 condition of the growing crop is but 86 per cent of normal. It is 91 per cent of an average in the northern division of the State, 82 per cent in the central division, and 84 per cent in Southern Illinois.

This low condition is principally due to the extended and long continued drought, which not only caused a decrease in the area seeded, but also retarded the growth of the plant.

Hessian fly has also injured the plant to some extent in about one-half of the counties in the central division of the State, and a few counties in Southern Illinois.

In Pike County a green louse has done some damage to the wheat.

#### RYE.

A decrease of 7 per cent in the area seeded to rye as compared with 1903 is noted, but 87,000 acres being reported. Of this amount 72,000 acres are in Northern Illinois, 11,000 in Central Illinois and 4,000 acres in the southern division of the State.

The December 1 condition of the crop is 89 per cent of normal, being 94 per cent in the northern division of the State, 85 per cent in the central division and 86 per cent of normal in Southern Illinois.

The drought has prevented the seasonable growth of rye as well as of wheat, thus accounting for its low condition.

#### CORN.

The area in corn this year, 7,825,000 acres is a little more than 2 per cent less than in 1903, when 7,956,000 acres were reported. The area in Northern Illinois was 3,122,000 acres, in Central Illinois 3,392,000 acres, and in the southern division of the State 1,132,000 acres.

In the northern and southern grand divisions, the average yield per acre was larger than last year, but in Central Illinois it is a little smaller.

The average yield per acre in the northern division was 39 bushels, in the central division 35 bushels, and in the southern division 31 bushels, a State average of 36 bushels per acre, which is a little more than the average yield.

The total corn crop of the State in 1904 amounted to 281,059,900 bushels, of which 121,942,000 bushels was produced in Northern Illinois, 118,865,000 bushels in Central Illinois, and 40,252,000 bushels in the southern division of the State.

The ruling price of corn December 1 was 39 cents per bushel. Had the entire crop been sold at this price it would have returned to the producer \$110,324,000.

Although there is some soft corn reported in the State, the average quality of the grain is very good, being 94 per cent of normal. The season has been an ideal one for ripening and harvesting the crop, but some of the late corn was caught by frost, thus reducing the quality.

In a number of counties root lice caused some loss, by causing the corn to fall, thus lessening the yield and injuring the quality. A little damage was also done by chinch bugs, but on the whole the past season was remarkably free from insect pests.

## CROP REPORT.

5

The area, yield and value of the corn crop of the State for the past forty-five years is given in the following table:

YEAR.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel—cents.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

## CROP REPORT.

## BROOM CORN.

There was a deficiency of 17 per cent in the area of broom corn as compared with 1903, but 13,131 acres being reported.

The average yield per acre, 667 pounds, was about normal, the total yield being 8,026,000 pounds, the smallest reported since 1877.

The ruling price December 1, of \$77 per ton was below the average, the total value of the crop being \$310,490.

The following table gives the area, yield and value of the broom-corn crop of Illinois since 1876:

YEAR	Acreage.	Av. yield per acre— lbs.	Total yield— lbs.	Price per ton.	Value of crop.
1877.....	14,566	458	6,674,747	\$71 20	\$237,594

## SORGHUM.

A slight decrease in the area devoted to sorghum is noted this year, the total area being but 5,335 acres, a decrease of 467 acres from the 1903 crop.

The average yield per acre was 88 gallons, which is an increase over the yield of 1903 of 11 gallons per acre, making the total yield 471,949 gallons, an increase over that of 1903 of 24,721 gallons.

The ruling price December 1, of 44 cents per gallon was above the average for a number of years, and had the entire product been sold at this price, would have returned to the producer \$208,551.

The following table gives the area, yield and value of the sorghum crops produced in the State since 1876:

YEAR.	Acreage.	Av. yield per acre— gallons.	Total number of gallons.	Price per gallon.	Value of crop.
1877.....	19,335	63	1,237,164	\$0 42	\$515,409

1904.....	5,335	88	471,949	44	208,551

## BUCKWHEAT.

There was a slight increase in the area devoted to buckwheat over that of 1903, the area for 1904 being 2,220 acres, which produced 33,153 bushels, being an average yield of 15 bushels per acre.

The ruling price December 1, of 72 cents is the highest received with one exception since 1882, making the estimated value of the crop \$24,052.

The following table gives the area, yield and value of the buckwheat crop in this State for the past twenty-eight years:

YEAR.	Acreage.	Av. yield per acre— bushels.	Total number of bushels.	Price per bushel.	Value of Crop.
1877.....	15,880	13	207,693	\$0 73	\$151,612

# CROP REPORT.

9

## TIMOTHY SEED.

There was 78,901 bushels of timothy seed produced in 1904. The average price per bushel, \$1.50, is a little below normal, and considerably below the price for four years preceding. The value of the crop at this price, \$119,550 is the lowest ever recorded.

The following table gives the amount and value of the crop in this State since and including 1877:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	483,571	\$1 25	\$604,464
1878.....	261,559	1 25	326,949
1879.....	213,329	2 25	479,990

1903.....	77,054	1 65	127,280
1904.....	78,901	1 50	119,550

## CLOVER SEED.

The amount of clover seed harvested this year, 43,997 bushels, is a little larger than that of 1903.

The average price per bushel, \$5.95, is considerably above the normal, and had the entire crop been sold at that price, it would have returned to the producer \$261,177.

## CROP REPORT.

In the following table will be found the yield and value of the crop of clover seed for 1903, as compared with the twenty-seven years preceding:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	64,686	\$4 80	\$310,493
1878.....	77,388	4 05	313,421

## HUNGARIAN AND MILLET SEED.

It has been a number of years since the crop of Hungarian and millet seed was as small as the 1904 crop, only 27,628 bushels being reported.

The ruling price December 1, of 95 cents per bushel, is the highest ever recorded, and the value of the crop at this price was \$26,296.

The following table gives the yield and value of this crop since 1876:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	17,463	\$0 65	\$10,701
1878.....	26,787	55	14,733
1879.....	43,776	75	32,832
1880.....	66,889	70	46,752

## BEANS.

Only 1,356 acres are reported as devoted to beans in 1904. This is the smallest acreage of this crop since 1892.

The average yield per acre was 14 bushels, the same as for the two preceding years, and the total yield 18,565 bushels.

The total value of the crop is estimated at \$34,966, an average price per bushel of \$1.90.

The following table gives the area, yield and value of the 1903 crop of beans, together with those of twenty-seven years preceding:

YEAR.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crops.
1877.....	1,545	13	19,955	\$1 50	\$29,916
1878.....	1,669	16	13,627	1 35	25,146

1903.....	1,432	14	19,913	2 10	41,873
1904.....	1,356	14	18,565	1 90	34,966

## CASTOR BEANS.

The area devoted to castor beans varies little, and this year it is almost the same as in 1903, 7,164 acres.

While the average yield per acre of 8 bushels is the same as 1903, the total yield of 57,437 bushels is less than that of the two preceding years.

The total value of the crop at the ruling price December 1, is \$80,915, an average price per bushel of a fraction more than \$1.40.

In the following table is given the area, yield and value of the twenty-eight crops of castor beans:

YEAR.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	4,503	3 $\frac{1}{4}$	17,538	\$1 10	\$18,512

1904.....	7,164	8	57,437	1 40	80,915

## TOBACCO.

Nearly the entire area devoted to tobacco in Illinois is in the southern division of the State, where 3,238 of the 3,886 acres reported are located.

The average yield per acre of 694 pounds is the largest bux one reported since 1895, but owing to the reduced acreage, the total yield of 2,696,450 pounds is below the normal.

The ruling price December 1 is 8 cents per pound, making the value of the crop \$207,254.

The following table gives the area, yield and value of the crop in this State since 1876:

YEAR.	Acreage.	Av. yield per acre— bushels.	Total number of pounds.	Price per pound.	Value of crop.
1877.....	12,320	640	7,885,586	\$0 08	\$633,848
1878.....	3,833	584	2,268,492	07	158,794
1879.....	3,079	890	2,741,329	09	246,719

1903.....	3,876	743	2,878,712	08	230,604
1904.....	3,886	694	2,696,450	08	207,254

## PASTURES.

A slight decrease in the area of pastures as compared with 1903 is reported this year, but 4,377,486 acres being reported.

The average value per acre of pastures in 1904 was about the same as a year ago, \$3.90. An idea of the comparative value of the grazing industry of the State is obtained by a comparison of the value per acre of pastures. In northern and central Illinois, where seven-eighths of the pasture lands are located, the value per acre is \$4.05 and \$4.10 respectively, while in southern Illinois it is but \$2.70 per acre.

The total value of pastures this year was \$17,102,390.

The following table gives the area and value of pastures for twenty-eight years past:

YEAR.	Acreage.	Value per acre.	Value of crop.
1877.....	4,367,603	\$3 38	\$14,764,112

## VEGETABLES.

## IRISH POTATOES.

The area devoted to Irish potatoes in 1904, 97,314 acres, has been exceeded but once since 1897, and the yield of 111 bushels per acre has only been equalled once since 1889.

The average price of 47 cents per bushel is somewhat less than a year ago, and the total value of the crop of 10,764,924 bushels is \$5,041,974.

The following table gives the area, yield and value of the Irish potato crops of the State since 1859:

YEAR.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel.	To'al value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

## SWEET POTATOES.

There was an increase of 14 per cent in the area devoted to sweet potatoes in 1904 over that of 1903.

The total acreage this year being 3,593 acres, which produced an average of 100 bushels per acre, which average has been exceeded but twice since 1891.

The total yield of the crop amounted to 361,201 bushels, which, at the ruling price of 77 cents per bushel, was worth to the producer \$278,944.

The following table gives the area, yield and value of the sweet potato crop of the State for the past twenty-eight years:

YEAR.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	2,855	63	148,270	\$0 85	\$126,092
1878.....	1,729	67	116,944	85	99,402
1879.....	1,423	88	126,169	90	112,552

1903.....	3,138	95	297,542	70	208,776
1904.....	3,593	100	361,201	77	278,944

## TURNIPS AND OTHER ROOT CROPS.

A decrease of 5 per cent is reported in the area devoted to turnips and other root crops this year as compared with 1903, but 494 acres being reported.

The average value per acre is \$183.31, and the total value \$90,556.

The average yield of turnips per acre was 123 bushels.

The following table gives the acreage and value of turnips and other root crops grown in the State during the past twenty-seven years:

YEAR.	Acreage.	Value per acre.	Value of crop.
1877.....	7,056	\$39 55	\$279,136
1878.....	3,775	40 85	154,140
1879.....	3,139	230 15	722,444

## OTHER CROPS NOT NAMED.

There are a number of crops raised in this State which are cultivated only in limited localities and are not of enough importance to be tabulated alone, but are of considerable value to producers.

Such small crops are included under this caption, and a table giving their value in each county in the State is published elsewhere in this report.

In central and southern Illinois cow peas are receiving more attention each year, as are soy, soja beans, both being used as forage crops.

Some rape is also being raised for feed.

The value of these miscellaneous crops in 1904 was estimated at \$178,513, an increase over last year of almost \$3,000. These crops are raised for market almost exclusively in the northern division of the State, \$167,452 being reported from there, the remainder being nearly equally divided between the other two sections of the State.

## FRUIT.

The apple crop of Illinois for 1904 was the smallest even produced, being only 423,480 bushels. Of this amount 216,877 bushels were produced in northern Illinois, 58,466 in central Illinois, and 148,137 bushels in the southern division of the State.

The average price per bushel on December 1 was 72 cents, making the total value of the crop \$303,750.

The following table gives the number of bushels of apples and the value of the crops since 1876:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	5,395,351	\$0 80	\$4,316,231
1878.....	4,940,811	65	3,211,527

1904.....	423,480	72	303,750

## PEACHES.

There was an increase of 19 per cent. in the peach crop of 1904 over that of 1903.

The 1904 crop amounting to 30,721 bushels, practically all of which was raised in southern Illinois. The average price was 87 cents per bushel, giving a total valuation of \$26,892.

The following table gives the quantity and value of the peaches produced in the State during the past twenty-eight years:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	402,587	\$0 92	\$370,280
1878.....	607,292	62	376,521

1902.....	74,368	75	56,200
1903.....	25,578	84	26,892
1904.....	30,721	87	26,892

## PEARS.

There was an increase of 10 per cent. in the pear crop of 1904 over that of 1903.

Of the 5,376 bushels produced in 1904, but 371 and 349 bushels, respectively, were raised in northern and central Illinois, and 4,656 bushels in the southern division of the State.

At the average price of 80 cents per bushel, the total value of the crop is \$4,280.

The following table gives the extent and value of the pear crop of the State since and including 1877:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	16,318	\$1 35	\$22,704
1878.....	13,510	1 25	16,887
1879.....	6,134	1 55	9,508

1902.....	9,914	92	9,145
1903.....	4,880	93	4,559
1904.....	5,376	80	4,280

## GRAPES.

There were 928,448 pounds of grapes produced in 1904. Of this quantity, 80,816 pounds were grown in northern Illinois, 341,050 pounds in central Illinois, and 506,448 pounds in the southern division of the State.

The ruling price of 2 cents per pound giving a total valuation of \$19,702.

The following table gives particulars concerning the grape crop of the State for the past twenty-eight years:

YEAR.	Pounds produced.	Price per psund.	Value of crop.
1877.....	3,002,748	\$0 03	\$92,782
1878.....	1,322,636	03	67,679

1904.....	928,448	02	19,702

## WINE.

The area in vineyards this year, 1,006 acres, is 2 per cent. less than 1903.

There were 100,532 gallons of wine produced, being an average of 100 gallons per acre.

Most of the wine produced in Illinois comes from the central division of the State, which produced 79,513 gallons of the 100,532 gallons produced in the State.

The average price of \$1.00 per gallon is considerably above the normal and has been exceeded but once since 1886.

The total value of the product at this price is \$101,253.

The following table gives the number of gallons of wine and the value thereof during the past twenty-eight years:

YEAR.	Acreage.	Av. yield per acre— gallons.	Number of gallons produced.	Price per gallon.	Value of crop.
1877.....	2,612	61	158,944	\$1 20	\$191,933

1904.....	1,478	72 00	105,821

**STRAWBERRIES.**

The value of the strawberry crop of 1904 was not quite so great as that of last year, \$40,016 being reported, of which \$20,704 was reported from northern Illinois, \$2,607 from central Illinois, and \$16,705 from the southern division of the State.

**WATERMELONS.**

There was a small decrease in value of watermelons sold in 1904.

In northern Illinois it was \$25,405; in central Illinois \$11,258, and in the southern division of the State, \$3,412, a total value of \$40,075.

**BEES AND HONEY.**

There was nearly one-fourth more honey produced in the State in 1904 than in 1903, there having been 630,688 pounds reported.

The average price obtained for that sold was 14 cents per pound, making the total value \$87,283.

The total number of hives of bees reported for 1904 was 57,753, an increase over 1903 of 3,424 hives.

The following table gives the amount and value of honey produced in this State during the past thirteen years, together with the number of hives of bees:

YEAR.	Pounds produced.	Price per pound.	Value of product.	Number of hives of bees.
1891.....	321,678	\$0 14	\$112,934	120,252
1892.....	575,356	14	83,294	81,928
1893.....	571,836	14	83,131	57,710
1894.....	542,796	14	76,782	70,113

1903.....	510,146	13	64,597	54,329
1904.....	630,688	14	87,283	57,753

**LIVE STOCK.**

According to the assessors' returns, there was almost 250,000 more hogs in the State May 1, 1904, than on the same date last year. This year they report 2,681,380 hogs. At the equalized value of \$1.13 per head, they were worth \$3,029,959.

The number marketed was 2,225,536, or 83 per cent. of the entire number. The average weight of those marketed was 219 pounds, giving a total gross weight of 486,816,025 pounds.

The average price of hogs was somewhat lower than for the three preceding years, those marketed averaging but \$4.75 per cwt. Their value at this rate was \$23,180,954.

The supply of hogs on hand December 1, 1904, is 94 per cent.

Quite a difference is noted between the price of hogs marketed during the year and the ruling price December 1, which is but \$4.20.

Hog cholera was reported from Kane, Warren, DeWitt, Ford, Hancock, Jersey, Macon, Morgan, Moultrie, Sangamon, Scott, Tazewell and Clay counties.

The following table gives the number of hogs assessed and marketed in 1904, as well as their weight and value, for the last forty-nine years:

YEAR.	Assessors' Returns.		Estimated per cent. marketed.	Number fat hogs marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value hogs marketed.
	Number.	Value.

#### BEEF CATTLE.

The number of cattle in the State May 1, 1904, according to the assessors' returns, was 2,535,954. At the equalized value of \$4.38 per head, they were worth \$11,187,478.

About 23 per cent. of the whole, or 583,264, were marketed during the year. Their average weight was 1,100 pounds, making their total weight 641,717,827 pounds.

The average price of those sold prior to December 1, was \$4.20 per cwt., giving a total value of \$26,813,388.

The supply of beef cattle on hand December 1, is 92 per cent. of the supply one year ago, and the average price per cwt. on that date, is \$3.90.

There have been a good many casses of black leg among young cattle the past year. The counties reporting it are: Mercer, Warren, Brown, Fulton, Scott and White.

A few cases of big jaw are reported from Gallatin County and Jo Daviess County reports some abortion among cows.

The following table gives the number, weight and value of the cattle marketed in the State since 1855:

DATE.	Assessors' Returns.		Estimated per cent. marketed.	Number beef cattle marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value beef cattle marketed.

## DAIRY COWS.

There were 621,052 cows reported in Illinois in 1904, of which nearly two-thirds were in the northern division of the State.

Their average value per head was \$35, and their total value \$22,003,251.

The following table gives the number and value of the dairy cows kept in Illinois since 1878:

YEAR.	Number.	Av. value per head.	Total value.
1879.....	571,628	\$31 00	\$17,720,468
1880.....	613,738	31 00	19,035,878
1881.....	625,410	31 00	19,387,710
1882.....	581,578	41 00	23,809,661

1904.....	621,052	35 00	22,003,251

## SHEEP.

Fewer sheep were reported by assessors this year than ever before—only 475,668.

Their equalized value per head is a little less than last year, 67 cents, making their total equalized value \$318,697.

Of the number assessed 22 per cent., or 104,641, were marketed, their average gross weight being 105 pounds, and their total gross weight 11,007,318 pounds.

The average price received for those marketed before December 1 was \$3.85 per cwt., making their total value \$423,281.

The supply of sheep on hand December 1, 1904, as compared with the same date last year, was 92 per cent.

The ruling price for sheep December 1, was \$3.85 per cwt.

In Crawford County there was some complaint of lambs dying from scours.

The following table gives the number, weight and value of the sheep marketed in the State since 1855:

YEAR.	Assessors' Returns.		Estimated per cent. marketed.	Number fat sheep marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value sheep marketed.
	Number.	Value.

## WOOL.

The wool clip of 1903 was unusually small, only 1,916,216 pounds being shorn.

The average price obtained for it 20 cents a pound, has been equaled but once since 1892. The total value being \$384,662.

The following table gives the number of pounds shorn, the price per pound, and the total value of the wool clip for the last twenty-eight years:

YEAR.	Number pounds shorn.	Price per pound.	Total value.
1877.....	3,291,677	\$0 30	\$987,503

## HORSES.

The number of horses reported by assessors this year, 1,224,487, is the largest ever reported, and their equalized value is also greater, being fixed at \$12.41 per head this year. This makes their total value \$15,195,884.

The number of colts foaled in 1903 was also greater than any year since 1893, 79,592 being reported.

There has been very little disease reported among horses the past season.

In Wayne County a number have died from eating fodder, and in Scott County there was some complaint of catarrhal fever.

Distemper was reported from Ogle, Hancock, McDonough and Crawford counties.

The following table gives the number of horses assessed in the State since 1855, and their equalized valuation, as well as the number of colts foaled each year since 1878:

YEAR.	Assessors' Returns.		Number colts foaled.
	Number.	Value.

## DAIRY PRODUCTS.

## MILK.

There was but little difference in the amount of milk sold in Illinois in 1904 than 1903, 108,053,340 gallons being reported.

The average price of 16 cents per gallon is the highest ever obtained, and the total value \$17,003,535, the largest returns ever received for milk in the State.

The following table gives the amount, price and value of the milk sold in the State the last twenty-eight years:

YEAR.	Gallons sold.	Price per gallon.	Total value.
1877.....	17,124,506	\$0 11 1-6	\$1,912,236
1878.....	30,567,415	10½	3,209,579

## CREAM.

Not since 1893 has the amount of cream sold in the State been so large as this year, when 1,923,255 gallons were sold.

The average price per gallon, 70 cents, is the highest, with one exception, ever reported, and the total value of the commodity at this price, \$1,340,115, has been exceeded but few times.

The quantity and value of the cream sold in the State since 1876 is given in the following table:

YEAR.	Gallons sold.	Price per gallon.	Total value.
1877.....	2,744,259	\$0 55	\$1,509,342
1878.....	62,707	52	32,608

1899.....	851,063	63	535,633
1900.....	1,204,679	56	678,006
1901.....	963,671	69	572,940
1902.....	1,724,554	61	1,053,197
1903.....	1,808,484	80	1,441,941
1904.....	1,923,255	70	1,340,115

## BUTTER.

The quantity of butter sold in 1904 was a little greater than in 1903, there being 13,781,567 pounds reported.

The average price received per pound was 21 cents, making the total value of the butter sold during the year \$2,925,823.

In the following table will be found the quantity and value of the butter sold in Illinois during the past twenty-eight years:

YEAR.	Pounds sold.	Price per pound.	Total value.
1877.....	18,970,227	\$0 20	\$3,794,045
1878.....	17,997,652	15	2,699,648
1879.....	25,028,225	19	4,755,363
1880.....	24,553,449	20	4,910,690
1881.....	21,578,414	26	5,610,647

1899.....	14,812,464	20	2,973,117
1900.....	14,987,887	20	3,073,146
1901.....	13,869,600	20	2,840,800
1902.....	14,751,609	22	3,273,405
1903.....	13,277,718	21	2,737,370
1904.....	13,781,567	21	2,925,823

## CHEESE.

There was quite an increase in the amount of cheese sold in 1904 over that for the preceding year, 553,881 pounds being reported. The average price of 14 cents per pound was a little better than that received the previous year, the total value being \$79,611.

The following table shows the quantity and value of the cheese sold in the State since 1876:

YEAR.	Pounds sold.	Price per pound.	Total value.
1877.....	4,502,671	\$0 12	\$540,320
1878.....	5,139,914	10	513,691
1879.....	6,618,212	13	860,367
1880.....	6,187,680	13	803,398
1881.....	5,837,974	15	875,696
1882.....	5,252,036	14	734,285
1883.....	4,931,826	14	672,474
1884.....	4,795,677	10	488,622
1885.....	2,812,266	10	230,795
1886.....	2,557,865	10	267,503
1887.....	3,484,933	12	422,018
1888.....	2,064,134	12	253,618
1889.....	1,600,592	12	185,778
1890.....	1,704,536	12	205,669
1891.....	1,186,133	12	148,488
1892.....	607,115	13	77,388
1893.....	1,513,690	11	174,044
1894.....	849,584	11	93,180
1895.....	2,085,983	11	233,222
1896.....	1,912,120	11	203,744
1897.....	1,367,253	11	147,382
1898.....	1,198,169	12	139,202
1899.....	2,096,381	12	261,838
1900.....	762,010	15	113,807
1901.....	772,286	14	107,911
1902.....	725,037	14	100,102
1903.....	476,975	13	64,647
1904.....	553,881	14	79,611

Tables published elsewhere in this report give by counties the quantity and value of the dairy products of the State for 1904.

## POULTRY AND EGGS.

The value of the poultry sold in the State in 1904 was 1 per cent greater than that of the previous year, being \$1,395,597. In northern Illinois \$820,064 was reported, in central Illinois \$377,775, and in the southern division of the State \$197,758.

A little larger increase in the value of eggs sold is reported, 3 per cent more than in 1903. Northern Illinois reports \$712,862, central Illinois \$313,035 and southern Illinois \$310,876.

## GENERAL FARM NOTES.

Renewed interest in tiling was noticed this year, many localities extending the amount already laid, and in some instances the old tile has been replaced by that of larger size.

The value of cow peas, both as a forage and fertilizer is becoming more widely recognized and their cultivation is spreading. In Mason county they have been very popular as a fertilizer the past year.

Root lice done considerable damage to the corn in the following counties: Adams, Cass, Lee, Morgan and Warren, and in Ford county the root worm done some damage.

## SUMMARY.

The following table gives in small space the value of the principal farm products and live stock of Illinois for the year 1904:

Corn .....	\$110,324,583
Winter wheat .....	15,980,678
Spring wheat .....	901,739
Oats .....	32,364,250
Rye .....	817,843
Barley .....	342,864
Buckwheat .....	33,153
Hay .....	25,018,810
Timothy seed .....	119,550
Clover seed .....	261,177
Hungarian and millet seed .....	26,296
Irish potatoes .....	5,041,974
Seeet potatoes .....	278,944
Turnips and other root crops .....	90,556
Broom-corn .....	310,490
Sorghum .....	208,551
Beans .....	34,966
Castor beans .....	80,915
Tobacco .....	207,254
Other crops not named .....	178,513
Apples .....	303,750
Peaches .....	26,892
Pears .....	4,280
Grapes .....	19,702
Strawberries .....	40,016
Watermelons .....	40,075
Other fruits and berries .....	105,821
Wine .....	101,253
Honey .....	87,283
Horses (equalized value) .....	15,195,884
Beef cattle (equalized value) .....	11,107,478
Dairy cows .....	22,003,251
Hogs (equalized value) .....	3,029,959
Sheep (equalized value) .....	318,697
Wool .....	384,662
Milk sold .....	17,003,535
Cream sold .....	1,340,115
Butter sold .....	2,925,823
Chese sold .....	79,611
Poultry sold .....	1,395,597
Eggs sold .....	1,336,773
Total .....	<u>\$269,473,563</u>

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent., is recorded 110; a decrease of five per cent. is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years, will be found to closely approximate the assessors' returns.

W. C. GARRARD,

*Secretary.*

\* If the crop had been sold at prevailing prices December 1, it would have returned this amount to the producer.

## NAMES AND POSTOFFICE ADDRESSES

—OF—

# CROP CORRESPONDENTS

STATE BOARD OF AGRICULTURE,

FOR THE YEAR 1904.

### WITH DATE OF APPOINTMENT.

#### ADAMS COUNTY—

- 1879, G. W. Dean, R. F. D. No. 1,  
Quincy.
- 1883, H. C. Cupp, Fall Creek.
- 1888, C. H. Rankin, Fall Creek.
- 1904, A. R. Wallace, Jr., Camp Point.

#### ALEXANDER COUNTY—

#### BOND COUNTY—

- 1882, W. D. Henry, Beaver Creek.
- 1885, J. B. Denny, Sorrento.
- 1885, W. H. Taylor, Tamalco.
- 1898, L. E. Alexander, Reno.
- 1903, J. T. Duffy, Sorrento.
- 1904, A. O. Donnell, Greenville.

#### BOONE COUNTY—

- 1877, George Reed, Belvidere.
- 1899, O. S. Cohoon, Belvidere.
- 1900, Ralston Bros., Caledonia.

#### BROWN COUNTY—

- 1889, W. B. Rigg, Mt. Sterling.
- 1889, C. J. Davis, Mound.

#### BUREAU COUNTY—

- 1897, O. W. Mason, Buda.
- 1904, W. Scott Martin, La Moille.

#### CALHOUN COUNTY—

- 1881, M. A. Kamp, Kampsville.
- 1891, Isaac S. Berry, Batehtown.

#### CARROLL COUNTY—

- 1897, Wm. E. Nipe, Mt. Carroll.
- 1899, Henry Daehler, Chadwick.
- 1899, Joseph R. Ross, Mt. Carroll.
- 1899, Jacob Grossman, Lanark.
- 1900, J. M. Carroll, Argo.

#### CASS COUNTY—

- 1878, John Beggs, Ashland.
- 1896, W. W. Matthew, Newmansville.
- 1903, M. L. Crum, Virginia.
- 1904, G. S. Armstrong, Chandlerville.

#### CHAMPAIGN COUNTY—

- 1877, W. A. Conkey, Homer.
- 1885, W. E. Dawley, Seymour.
- 1903, E. B. Armstrong, Tolono.

#### CHRISTIAN COUNTY—

- 1877, John W. Hunter, Pana.
- 1877, A. B. Herdman, Morrisonville.
- 1878, O. S. Nash, Sharpsburg.
- 1897, Basil Hill, Edinburg.
- 1904, Earl White, Morrisonville.

#### CLARK COUNTY—

- 1877, F. B. Ennis, R. F. D. No. 4,  
Martinsville.
- 1877, R. R. Scott, Casey.
- 1880, Jerry Ishler, Martinsville.
- 1900, Wilfred Shaw, Darwin.

#### CLAY COUNTY—

- 1891, Edgar Hayes, Iola.
- 1902, Israel Mills, Clay City.
- 1904, Leslie F. Brissenden, Flora.
- 1904, T. O. Pierce, Xenia.
- 1904, Jno. T. Campbell, Louisville.

#### CLINTON COUNTY—

- 1890, John B. Heimann, Damiansville.
- 1901, Frank Bassler, Trenton.

#### COOK COUNTY—

- 1879, C. L. Sweet, Glenwood.
- 1880, Elbert Whee'er, Arlington Heights.

## COLES COUNTY -

## CRAWFORD COUNTY—

- 1877, William L. Heustis, Robinson.
- 1882, William Wood, Oblong.
- 1897, W. M. Hart, Annapolis.
- 1900, Clinton Newlin, Hutsonville.
- 1900, D. H. Newlin, Hutsonville.

## CUMBERLAND COUNTY—

- 1892, Jas. M. Albin, Neoga.
- 1887, David B. Green, Toledo.
- 1891, J. L. Mattoon, Greenup.

## DeKALB COUNTY—

## DeWITT COUNTY—

- 1882, W. R. Carle, Wapella.
- 1897, W. H. Oglevee, Clinton.
- 1898, C. E. Robb, Clinton.

## DOUGLAS COUNTY—

- 1887, William Iles, R. F. D. No. 6, Tuscola.
- 1892, Perry N. Howe, R. F. D. No. 3, Tuscola.
- 1897, J. S. Campbell, Murdock.
- 1902, E. E. Senteney, Arcola.

## DuPAGE COUNTY—

- 1885, Thomas Betts, Jr., Naperville.
- 1900, G. W. Pickering, Wayne.
- 1904, E. W. Plane, Wheaton.
- 1904, F. A. Rogers, Downers Grove.

## EDGAR COUNTY—

- 1885, Morris Little, Edgar.
- 1892, C. D. Smith, Grandview.
- 1904, I. E. Nay, Kansas.
- 1904, F. L. Moss, Edgar.

## EDWARDS COUNTY—

- 1877, W. A. Shelby, Maple Grove.
- 1889, Ira Gould, Bone Gap.

## EFFINGHAM COUNTY—

- 1883, George W. Strong, Winterrowd.
- 1883, T. J. Dunn, Elliottstown.
- 1902, Chas. F. Blakeley, Altamont.

## FAYETTE COUNTY—

- 1892, A. C. Davis, Farina.
- 1899, F. M. Pope, Bayle City.

## FORD COUNTY—

- 1879, S. J. LeFevre, Gibson City.
- 1892, L. Corbley, Paxton.
- 1892, W. B. Flora, Paxton.
- 1901, E. E. Bishop, Piper City.

## FRANKLIN COUNTY—

- 1889, Wm. Browning, Osage.
- 1889, John A. Coleman, Frankfort.
- 1896, M. N. Webb, Gresham.
- 1904, W. B. Martin, Benton.
- 1904, J. M. Willmore, Frankfort.
- 1904, C. M. Upchurch, Ewing.

## FULTON COUNTY—

- 1878, John Prickett, Lewistown.
- 1885, E. J. Parry, Astoria.
- 1901, W. P. Frazier, Fairview.
- 1902, C. W. Craft, Vermont.
- 1903, C. E. Chick, Vermont.
- 1904, Abram Wilson, Fairview.

## GALLATIN COUNTY—

- 1877, Martin Doherty, Shawneetown.
- 1889, John M. Bowling, Equality.
- 1897, Sherman P. Lamb, Ridgeway.

## GREENE COUNTY—

- 1877, S. G. Russell, Bluffdale.
- 1887, C. I. McCollister, White Hall.
- 1895, A. C. Ellis, Greenfield.
- 1902, L. E. Prindle, Roodhouse.
- 1903, Donald Simpson, Jr., Carrollton.

## GRUNDY COUNTY—

- 1891, F. Dirst, Minooka.
- 1892, Louis Germain, Gardner.
- 1892, Wm. Reardon, Morris.

## HAMILTON COUNTY—

- 1887, Geo. K. Edwards, McLeansboro.
- 1889, J. D. Lockwood, Braden.
- 1899, J. M. Weldin, McLeansboro.

## HANCOCK COUNTY—

- 1877, E. J. Baxter, Nauvoo.
- 1885, C. M. McMillan, Denver.
- 1885, W. A. Moore, R. F. D. No. 2, Carthage.
- 1891, C. S. Campbell, La Harpe.

## HARDIN COUNTY—

- 1892, John Gross, Crossville.
- 1899, Wm. R. Martin, Elizabethtown.

## HENDERSON COUNTY—

- 1898, D. A. Whiteman, Biggsville.

## HENRY COUNTY—

- 1877, N. C. Gilbert, Geneseo.
- 1877, John A. Widney, Alpha.
- 1885, S. H. Moon, Annawan.
- 1889, Horace S. Gilbert, Geneseo.

## IROQUOIS COUNTY—

- 1879, Robert Caldwell, Sheldon.
- 1897, Herman Salmon, Woodworth.
- 1897, Peter Wright, Clifton.

## JACKSON COUNTY—

- 1904, H. G. Easterly, Carbondale.
- 1904, Pete Griffey, Murphysboro.

## JASPER COUNTY—

- 1876, W. E. Barrett, Lis.
- 1876, A. Wilson, Wheeler.
- 1892, W. W. Kibler, Hunt City.
- 1902, W. A. Kibler, R. F. D. No. 2, Rose Hill.

## JEFFERSON COUNTY—

- 1879, E. S. Noleman, R. F. D. No. 2, Centralia.
- 1897, A. J. Cook, Opdyke.

# ILLINOIS CROP REPORT

FOR

## MAY 1, 1905.

---

### SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE.  
SPRINGFIELD, MAY 1, 1905

The information contained in this report as to the acreage of crops and number of head of live stock was obtained from the reports of assessors made to this Department as required by law.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past twenty-eight years, and their estimates, for a term of years, when compared with the subsequent official returns made by the assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number nearly six hundred, and are so distributed over the state as to fairly represent each locality.

The state covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

#### WINTER WHEAT.

The May 1 reports to this department show a most encouraging prospect for winter wheat.

The area winter killed or destroyed by floods the past season was 7 per cent of that seeded last fall, thus leaving 1,332,112 acres for harvest. In northern Illinois the proportion destroyed was 5 per cent of that seeded, in central Illinois 6 per cent and in southern Illinois 9 per cent is reported destroyed. Barring complaints from the dry weather from a number of counties in the wheat belt, in March, the past season has been most favorable for wheat, and the May 1 condition of 97 per cent

## CROP REPORT.

of a seasonable average has not been exceeded since 1901. This condition is 17 points above that of May 1, 1904.

In northern Illinois the May 1 condition is reported at 101 per cent of a seasonable average. In central Illinois at 95 per cent and in southern Illinois at 95 per cent. There is little or no complaint of damage to wheat by Hessian fly or chinch bugs.

## SPRING WHEAT.

The area devoted to spring wheat this year is about the same as last year. In northern Illinois where more than nine-tenths of the spring wheat is grown, the area seeded as compared with 1904 is 99 per cent. In central Illinois it is 103 per cent and in southern Illinois 80 per cent, but very little spring wheat is grown in central and southern Illinois. The May 1 condition of spring wheat is 93 per cent of a seasonable average.

## OLD WHEAT.

Of the 20,177,390 bushels of wheat raised in this state in 1904, 11 per cent or 2,189,241 bushels are reported as in the producers hands May 1.

The following table gives the amount of old wheat in first hands the first of May, since and including 1880:

YEAR PRODUCED.	Crop in bushels.	Per cent. crop on hand following May 1.	Amount crop in producers' hands following May 1	Surplus wheat above seed and con- sumption at harvest.	Deficit at harvest
1880.....	56,508,309	15	8,476,246	39,851,883	.....

1904.....	20,177,390	11	2,981,241	.....	1,183,531
Average.....	25,579,610	13	3,486,018	13,809,554	4,844,768

## WINTER RYE.

Of the 87,048 acres seeded to rye last fall, 3 per cent is reported destroyed, leaving 84,437 acres for harvest. The May 1 condition of the crop is almost up to normal, being 98 per cent of a seasonable average and 9 points above the May 1 condition of 1904.

In northern Illinois it is 100 per cent, in central Illinois 98 per cent and in the southern division of the State 97 per cent of a seasonable average.

## OATS.

There is an increase of 1 per cent in the area seeded to oats this year, as compared with 1904.

The favorable weather at seeding time made this increase in acreage of this crop. In northern Illinois the average this year as compared with 1904 is 100 per cent. In central Illinois it is 103 per cent and in the southern division of the State 101 per cent.

The May 1 condition of the crop is 95 per cent of a seasonable average, which is 17 points above the 1904 May 1 condition, and has not been equalled on this date for a number of years.

In the northern division of the State the May 1 condition is 98 per cent of normal, in central Illinois it is 95 per cent and in southern Illinois 93 per cent.

## BARLEY.

The area devoted to this crop in northern and central Illinois this year is up to the normal, being 100 per cent in each division, but in southern Illinois it is but 75 per cent.

The May 1 condition of the crop in northern Illinois is 99 per cent of a seasonable average; in central Illinois it is 100 per cent and in southern Illinois 91 per cent, giving a State average of 97 per cent of a seasonable average for this crop.

## OLD CORN.

A little less than the usual proportion of old corn is in producers' hands May 1; 26 per cent of the entire crop or 73,777,043 bushels.

In northern Illinois there were 37,091,469 bushels on hand, in central Illinois 27,927,409 bushels and in the southern division of the State 8,758,165 bushels.

Livingston county reports the largest amount of corn in first hands May 1. This county produced the largest crop of any county in the State last year, 11,316,943 bushels. Of this amount 42 per cent, or 4,753,116 bushels is in the producers' hands at this date.

In northern Illinois the percentage of the entire crop unsold on May 1, was 30, in central Illinois it was 23 per cent and in the southern division of the State 22 per cent.

The following table gives the amount of old corn in the producers' hands May 1, the past twenty-six years as well as the extent of the crop produced each preceding year:

## CROP REPORT.

## Old Corn.

YEAR PRODUCED.	Crop.	Per ct. corn on hand fol- lowing May 1.	Bushels corn in producers' hands follow- ing May 1.

Average .....	227,077,246	28	63,874,411

## MEADOWS.

The area in meadows, this year is almost the same as in 1904, being 95 per cent as compared with last year.

The May 1 condition of meadows is almost up to normal, being 95 per cent of a seasonable average. The condition reported from northern Illinois being 98 per cent, in central Illinois 91 per cent and southern Illinois 96 per cent.

## PASTURES.

There is a deficiency of but 3 per cent in the area devoted to pastures this year as compared with last year, being 97 per cent of normal. In the northern division it was 99 per cent, in the central division 95 per cent and in southern division 98 per cent.

The early spring has been very favorable for the growth of pastures so that the May 1 condition is 97 per cent of a seasonable average. In northern Illinois the condition is reported as 97 per cent, central Illinois 94 per cent and in the southern division of the State 99 per cent.

## SPRING PLOWING.

Both the weather and the condition of the soil have been exceedingly favorable for farm work this spring and the amount of work done to May 1, is fully up to the average. About two-thirds of the entire amount of spring is generally finished by May 1, and the reports this year show that 66 per cent of this work was finished by May 1.

More progress has been made in central Illinois, than either in northern or southern Illinois, 77 per cent having been done. In northern Illinois 64 per cent was done and in southern Illinois 56 per cent.

Outside of a very few counties reporting the soil too wet, the condition of the soil has been the very best for working.

## LIVE STOCK.

## Horses.

The number of horses reported on May 1, is almost up to that of last year, being 96 per cent as compared with 1904.

But little sickness is reported among horses. Distemper is reported from Lake, Will, Adams, DeWitt, Douglas, McLean, Moultrie, Bond, Crawford, Franklin and Lawrence counties. In Marshall county some sickness has been caused by over feeding and in Morgan county there is some catarrhal fever among horses. In Will county many mares are losing their colts.

With the above exceptions the general condition of horses is good, being 97 per cent of normal.

## Mules.

There is a deficiency of 6 per cent in the number of mules in the State this year as compared with last. Their May 1 condition is 98 per cent of normal.

## Cattle.

In northern and central Illinois the number of cattle reported this year is 93 per cent of that for 1904, but in southern Illinois there is an increase of 4 per cent, making the total number for the State 97 per cent of that of last year.

Their May 1 condition is 97 per cent of normal, being 95 per cent in northern Illinois, 97 per cent in the central division and 98 per cent in southern Illinois.

In Mercer county some calves are reported as dying from scours. Aside from this there is no complaint of sickness among cattle.

In Lake county there has been established a feeding station for fattening cattle by a new system of sprouting corn, which is prepared by machinery, and some kind of chemical process, which effects a great saving in the cost of and increases the value of the feed to the animals.

## Dairy Cows.

In northern Illinois there was 3 per cent fewer dairy cows than was reported last year, in central Illinois 4 per cent and in southern Illinois 1 per cent fewer than last year. Their May 1 condition is 96 per cent of normal in northern and central Illinois and 99 per cent in southern Illinois.

## Hogs.

The number of hogs on hand May 1, as compared with last year, is 90 per cent.

The following counties report an increase over last year, viz: Bureau, Knox, LaSalle, Putnam, Adams, Champaign, Clinton, Crawford and Jackson. The May 1 condition of hogs is 98 per cent of normal in northern and central Illinois, and 97 per cent in the southern division of the State.

In Mercer county there is a complaint of many young pigs dying of scours and wet weather.

Hog cholera is reported from only three counties, viz: Cass, Sangamon and Schuyler. In Monroe county a number of hogs are dying from some unknown cause.

## CROP REPORT.

## Sheep.

In northern Illinois the number of sheep this year as compared with 1904 is 96 per cent and their May 1 condition 98 per cent of normal. In central Illinois their number is 94 per cent of that of last year and their condition 98 per cent of normal. In the southern division of the State the number reported is but 90 per cent compared with that of last year, and their condition 92 per cent of normal. There is no disease reported among the sheep.

## FRUIT.

The fruit prospect on May 1, is the best, the State over, for several years. With the exception of peaches the prospect is good for a full crop of fruit. A few counties in southern Illinois report that the frost of April 14th did some damage, but to what extent our correspondents were unable to tell on May 1.

## GENERAL FARM NOTES.

Beekeepers generally suffered great loss from the cold winter, a very large number of bees being winter-killed. In the fruit-growing counties, where spraying is used to kill insects, the insecticides used are very destructive to bees.

No very material change in the area of crops is reported but some minor ones are noted: In Cook county the area in Irish potatoes is doubled by many planters this year. Some alfalfa and cow peas will be planted in Marshall county, and in Cumberland and Jasper the area of broom-corn planted will be smaller than last year.

## WAGES PAID FARM HANDS.

From every section of the State come complaints of the scarcity of good farm hands. While the shortage this year is only 11 per cent as compared to an average, there is a great deal of complaint as to the quality. There is not much difference between the wages paid this year than last, but what difference there is in most cases an increase.

The average wages paid farm hands during the past twenty-six years in the three grand divisions of the State, are given in the following table:

DIVISION.	PER DAY.		PER MONTH.	
	With board.	Without board.	With board.	Without board.
Northern.....	\$1 05	\$1 30	\$20 25	\$28 90
Central .....	85	1 10	18 15	24 60
Southern .....	65	90	14 75	20 80
Average .....	\$0 85	\$1 10	\$17 70	\$24 75

The wages paid farm help in the three divisions of the State, during the past twenty-six years, is given in the following tables:

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recoded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years, will be found to closely approximate the assessors' returns.

W. C. GARRARD,

Secretary.

# ILLINOIS CROP REPORT

FOR

## JUNE 20, 1905.

---

### SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE  
SPRINGFIELD, JUNE 20, 1905.

The information contained in this report was obtained from the reports of correspondents mailed to this office the twentieth of June.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past twenty-nine years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgement and conservative character of the reporters.

The correspondents number nearly six hundred, and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

#### CORN.

A slight increase in the area devoted to corn is reported this year. There is a deficiency of 1 per cent in northern Illinois and 5 per cent in southern Illinois, while in the central division there is an increase of 1 per cent, which more than balances the deficiency in northern and southern Illinois.

The June 20, condition of the crop is more promising than a year ago, being 90 per cent of a seasonable average in northern Illinois, 93 per cent in central Illinois. Owing to drought in the southern division of the State the seasonable average is but 82 per cent. Cut, wire and bud worms, lice, ants and moles are

## CROP REPORT.

reported from many counties as having done considerable damage to early corn, causing many fields to be replanted.

The quality of seed corn is 89 per cent of an average, an increase of 2 per cent over June 20, 1904. In northern Illinois it was 92 per cent of an average, in central Illinois 87 per cent and in southern Illinois 88 per cent.

The earliest appearance of corn above ground was April 1, in Jefferson county, but the most of it was seen between April 20 and May 5.

The earliest noted in northern Illinois was May 1 in Woodford county, and in central Illinois April 5, in Piatt county.

### BROOM CORN.

The estimated area of this crop is 19 per cent less than last year. In northern Illinois the deficiency is 14 per cent, in central Illinois 26 per cent and in southern Illinois 17 per cent. The June 20 condition of the crop is 89 per cent of a seasonable average in northern and central Illinois and 67 per cent in southern Illinois.

### SORGHUM.

The area in sorghum this year, as compared with 1904, is 90 per cent. In the northern division of the State it is 86 per cent, in the central division 92 per cent, and in the southern division 93 per cent.

### WINTER WHEAT.

Since the May 1 report, there has been a decrease of 5 points in the condition of winter wheat.

In the northern division of the State it is 99 per cent, in the central division 95 per cent and in the southern division 83 per cent. June 10th was the earliest date harvest commenced.

Hessian fly is reported in the following counties: Cass, Clark, Mason, Sangamon and Lawrence.

Rust is reported in Pope and Wayne counties, while Mason, Jackson, Massac, Pope and Pulaski report chinch bugs, but no material damage.

### SPRING WHEAT.

The June 20 condition of spring wheat is about 90 per cent of an average, very few counties making a report on it.

### OATS.

There is a decrease of 5 points in the condition of oats as compared with the May 1 condition.

In northern Illinois the June 20 condition is 97 per cent of a seasonable average, in central Illinois 91 per cent and in southern Illinois 83 per cent.

Many counties report rank growth and liability to lodge.

Oats are reported as very short in the central and southern divisions of the State on account of severe drought.

Smut is reported in Edgar, Hancock, Menard and Edwards counties and rust in Cass, Scott and Vermillion.

**RYE.**

The condition of rye June 20th showed a decrease of 3 per cent since the May 1 report, being 95 per cent of a seasonable average.

In northern Illinois the condition is 98 per cent, in central Illinois 95 per cent, and in southern Illinois 93 per cent.

**BARLEY.**

In northern Illinois the June 20th condition of this crop is 99 per cent of a seasonable average. No barley is reported in central Illinois and in but two counties of the southern division of the State, their condition being 55 per cent.

**MEADOWS.**

The area devoted to meadows this year is 3 per cent less than 1904 in northern Illinois, 9 per cent less in central Illinois and 3 per cent less in southern Illinois.

The drought in the central and southern divisions of the State cut short a very promising crop, the average being 85 per cent in central Illinois, 75 per cent in southern Illinois while in northern Illinois it is 101 per cent.

Much meadow-daisy is reported from Madison county, also army worms.

**CLOVER.**

The area devoted to clover is about the same as 1904. In northern Illinois there is an increase of 7 per cent. In central Illinois there is a deficiency of 6 per cent, and in southern Illinois of 4 per cent.

The June 20th condition of clover was 99 per cent in northern Illinois, 91 per cent in central Illinois and 93 per cent in southern Illinois, the State average being 94 per cent.

**HUNGARIAN AND MILLET.**

Not so large an area of these grasses was planted this spring as a year ago, the State deficiency being 7 per cent. In northern Illinois their area as compared with 1904 was 96 per cent, in central Illinois 94 per cent and in southern Illinois 88 per cent.

**PASTURES.**

The area devoted to pastures this year is estimated as 3 per cent less than a year ago. In northern Illinois the area is 99 per cent, as compared with 1904, in central Illinois 95 per cent, and in southern Illinois 98 per cent.

In northern Illinois the June 20th condition is 104 per cent, in central Illinois 90 per cent and in southern Illinois 87 per cent.

## CROP REPORT.

Pastures have been seriously injured by drought in the central and southern divisions of the State.

## IRISH POTATOES.

There is a decrease of 1 per cent in the area devoted to Irish potatoes this year in northern and southern Illinois and 2 per cent in central Illinois.

The June 20th condition was 98 per cent in northern Illinois, 92 per cent in central Illinois and 84 per cent in southern Illinois.

Potato bugs arrived early and in large numbers, being reported in Boone, Cook, Henry, JoDaviess, Kankakee, Lee, Livingston, Marshall, Ogle, Putnam, Winnebago, DeWitt, Mason, Vermillion and Clay counties.

## SWEET POTATOES.

In southern Illinois the area devoted to this crop is 6 per cent less than in 1904, in central Illinois 9 per cent less and in southern Illinois 7 per cent less.

The June 20th condition is 95 per cent of normal in northern Illinois, 92 per cent in central Illinois and 86 per cent in southern Illinois, giving a State average of 91 per cent.

## FIELD BEANS.

In northern Illinois the area devoted to field beans is 8 per cent less than in 1904, in central Illinois 5 per cent, and in southern Illinois 15 per cent.

The June 20th condition of this crop is 94 per cent of a seasonable average, being 97 per cent in the northern division of the State, 96 per cent in the central division and 89 per cent in the southern division.

## COW PEAS.

Northern Illinois reports the same area in cow peas as in 1904, central Illinois an increase of 4 per cent, while in southern Illinois there is a deficiency of 13 per cent as compared with 1904.

## TOBACCO.

JoDaviess county is the only county in the northern division of the State making any report on tobacco. In this county the area is reported the same as that of last year and the June 20th condition a full seasonable average.

In central Illinois but two counties, Coles and Edgar, make report on this crop. The area being reported the same as for last year and the condition being 100 per cent of normal.

In the southern division of the State there is a deficiency of 14 per cent in the area as compared with last year and the June 20th condition is reported as being 88 per cent of a seasonable average.

## CROP REPORT.

7

### FRUIT.

#### Cherries.

Northern Illinois reports the yield of cherries 98 per cent of normal, central Illinois as 76 per cent, and southern Illinois as 65 per cent.

#### Strawberries.

In northern Illinois the yield of strawberries was 106 per cent as compared to an average, in central Illinois 93 per cent, and in southern Illinois 82 per cent.

#### Raspberries.

The yield of raspberries this year was 90 per cent of normal, being 99 per cent in northern Illinois, 90 per cent in central Illinois and 81 per cent in southern Illinois.

#### Gooseberries.

The largest crop of gooseberries this year was in the northern division of the State where 94 per cent of the usual crop was produced, while the central and southern divisions report 80 per cent, respectively, the State average being 85 per cent.

#### Currants.

There was 79 per cent of an average crop of currants raised in Illinois this year, the crop in northern Illinois being 93 per cent of normal, in central Illinois 81 per cent, and in southern Illinois 63 per cent.

#### Vineyards.

The area reported in vineyards this year is 94 per cent as compared with 1904. In northern Illinois the June 20th condition is 94 per cent, in central Illinois 92 per cent and in southern Illinois 87 per cent. The State average being 91 per cent.

The 17-year locust is reported as doing considerable damage to grapes in Peoria county.

#### Other Fruit.

Apples are reported from many counties as falling badly, while "blight" is reported from McHenry, Cass and Vermillion counties.

Clay county reports fruit as injured by frost May 1, and Franklin county a small striped bug as a menace to the melon grower.

The fruit crop will be light, very few counties making an encouraging report.

## CROP REPORT.

## YOUNG LIVE STOCK.

## Pigs.

The number of pigs farrowed this year is 7 per cent less than in 1904. Northern Illinois reports 94 per cent, central Illinois 93 per cent, and southern Illinois 92 per cent.

Northern Illinois reports 97 per cent of a normal condition and central and southern Illinois 96 per cent, respectively.

Hog cholera is reported in Hamilton and Williamson counties, many hogs having died of same in former county.

## Lambs.

The number of spring lambs reported this year is 7 per cent less than in 1904. In the northern and central divisions of the State the number is 94 per cent of that of 1904 and in the southern division 91 per cent.

The condition of lambs is good, 98 per cent of normal. In northern Illinois it is 97 per cent and in central and southern Illinois 98 per cent.

## Calves.

Northern Illinois reports the number of calves as 96 per cent as compared to that of 1904, central and southern Illinois 97 per cent.

Their condition in northern Illinois is 97 per cent of normal and 98 per cent in central and southern Illinois.

There is some complaint from Christian county of milk fever which report says has been very successfully treated with oxygen gas.

## Colts.

The proportion of colts foaled this year to those foaled in 1904 is 100 per cent in northern Illinois, 97 per cent in central Illinois and 98 per cent in southern Illinois.

Their June 20th condition is 97 per cent of normal in northern Illinois and 98 per cent in central and southern Illinois.

A number of mares died in foaling in LaSalle county.

The average value of colts at weaning time is \$39, northern Illinois reporting \$35, central Illinois \$42, and southern Illinois \$41.

In the northern division of the State, 7 per cent were lost before weaning time, in the central division 6 per cent, and in the southern division 5 per cent, making the State average 6 per cent.

The average cost of service of stallions was \$12 in northern Illinois, \$14 in central Illinois and \$10 in southern Illinois, the average cost in the State being \$12.

## WOOL.

The wool clip of 1905 was 4 per cent less than that of 1904. In the northern division of the State it was 99 per cent, in the central division 95 per cent, and in the southern division 94 per cent.

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years, will be found to closely approximate the assessors' returns.

W. C. GARRARD,

Secretary.

# ILLINOIS CROP REPORT

FOR

## AUGUST 1, 1905.

---

### SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE  
SPRINGFIELD, AUGUST 1, 1905.

The information contained in this report was obtained from the reports of correspondents mailed to this office the first of August.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past twenty-nine years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgement and conservative character of the reporters.

The correspondents number nearly six hundred, and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

#### WHEAT.

The area seeded to wheat for the crop of 1905 was 1,491,354 acres, all but 61,974 acres being winter wheat. Three per cent of the winter wheat area was winter-killed or destroyed by floods, leaving 1,447,764 acres of wheat (spring and winter) for harvest.

The average yield per acre, 15 bushels, is better than usual. The total yield amounted to 22,459,320 bushels. The ruling price of wheat August 1st was 80 cents per bushel, the total value of the crop at this price being \$18,089,263.

This crop has been free from insect injury but several counties in the southern division of the State, report damage in shock, caused by rain.

The following table gives the area, yield and value of the wheat crop of the State during the past forty-five years.

## WHEAT (SPRING AND WINTER.)

YEAR	Number of acres harvested.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

## WHEAT CONSUMPTION.

In estimating the amount of wheat required in the State for seed and bread, it is necessary to consider the entire area seeded instead of that harvested, as the amount required for seed is based on the area seeded last year which was 1,491,354 acres

As one and one-third bushels per acre is used for seed, it will require 1,988,472 bushels to seed next year's crop.

Allowing 4 bushels per capita for food, it takes according to the 1900 census, which gives Illinois 4,821,550 inhabitants, 19,286,200 bushels for that purpose, so that 21,274,676 bushels will be required for home use.

As the total yield amounted to 22,459,320 bushels, there remains 1,184,844 bushels for export.

#### OATS.

There was a slight increase in the area devoted to oats this year, the area harvested being 3,242,762 acres. Northern Illinois reports 1,848,494 acres, central Illinois 1,028,364 acres and southern Illinois 365,904 acres.

The total yield of oats for 1905 is 124,537,443 bushels of which 76,617,232 were produced in northern Illinois, 39,188,054 in central Illinois and 8,732,157 in southern Illinois.

The average yield per acre for the State is 38 bushels—Northern Illinois reporting an average of 41 bushels, central Illinois 38 bushels and southern Illinois but 24 bushels per acre.

The prevailing price of oats August 1 was 26 cents per bushel, making the value of the crop at that price \$32,769,803. Rust in oats is reported from Wayne county, while a few counties in southern Illinois report injury caused by wet weather.

## CROP REPORT.

The following table gives the area, yield and value of the oats crop of the State during the past forty-five years.

Year.	Number of acres.	—average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

A table published elsewhere in this report gives the area, yield and value of the oat crop in each county in the State this year.

## RYE.

An even smaller area than in 1904 is reported in rye this year, only 87,430 acres almost all in the northern division of the State. The average yield per acre, 19 bushels is the highest with one exception since 1894. The total yield amounted to 1,630,583 bushels.

It is thirteen years since so good a price has been received for rye, the August 1 price being 58 cents per bushel. The value of the crop at this price was \$945,160.

## CROP REPORT.

7

The following table gives the area, yield and value of the past forty-five rye crops grown in the State.

Year.	Number of acres.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

A table published elsewhere in this report gives the area, yield and value of rye in each county in the State.

## BARLEY.

There is an increase of 1,221 acres in the area devoted to barley over that of 1904—the total area being 29,663 acres.

The average yield per acre of 30 bushels is slightly above normal and gave a total barley crop of \$99,832 bushels.

The ruling price August 1 was 39 cents per bushel, making the value of the crop \$351,034.

The following table gives the area, yield and value of the last forty-five barley crops produced in this State.

YEAR.	Number of acres.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

In a table published elsewhere in this report will be found the area, yield and value of the barley crop in the State by counties.

## HAY.

But little change in the area of meadows is noted from year to year, the area for 1905 being 2,516,793 acres of which 1,042,242 acres are reported from northern Illinois, 837,695 acres from central Illinois and 636,856 acres from the southern division of the State.

The average yield of 1 1-3 tons of hay per acre is a little better than that of 1904. In the northern division the average yield was 1 2-3 tons per acre, in the central division 1 1-4 tons and in southern Illinois 1 ton.

The yield amounted to 3,390,174 tons and the average price per ton on August 1 was \$6.85 per ton, making the total value of the crop \$23,212,759.

The yield of clover was 1 7-8 tons per acre in northern Illinois, 1 5-8 tons in central Illinois and 1 1-2 tons in the southern division of the State.

The August 1 condition of clover was 94 per cent of normal and was quite uniform all over the State.

The following table gives the area, yield and value of the last forty-five hay crops of the State.

Year.	Number of acres.	Average yield per acre—tons.	Tons produced.	Price per ton.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

**CORN.**

The August 1 reports on corn are most favorable for the largest corn crop ever produced in Illinois. The area reported 7,743,361 acres is about the same as that of 1904.

In northern Illinois the area reported is 3,069,407 acres, central Illinois 3,419,443 acres and southern Illinois 1,254,511 acres.

The August 1 condition of corn is 96 per cent of a seasonable average and 6 points above the June 20 condition in our last report. A number of counties on August 1 reported that corn was needing rain badly. Grub worms are reported from Boone, Kendall and Mason counties.

A few instances of corn "firing" are reported.

**BROOM-CORN.**

The August 1 condition of broom-corn was 98 per cent of a seasonable average in northern Illinois, 97 per cent in central Illinois and 94 per cent in the southern division of the State, the State average of 96 per cent being 9 points better than on August 1, 1904.

**SORGHUM.**

The August 1 condition of sorghum was 96 per cent of a seasonable average in northern Illinois, 97 per cent in central Illinois, 91 per cent in southern Illinois, the State average being 95 per cent.

**PASTURES.**

A slight decrease in the area of pastures is noted this year, 4,286,296 acres being reported.

The August 1 condition of pastures is reported as 95 per cent of a seasonable average, being 97 per cent in northern Illinois, 91 per cent in central Illinois and 97 per cent in southern Illinois.

A number of counties in the northern division of the State report pastures in need of rain.

**IRISH POTATOES.**

Irish potatoes have depreciated slightly in condition since June 20, their August 1 condition being 91 per cent of normal in northern Illinois, 83 per cent in central Illinois and 84 per cent in the southern division of the State.

**SWEET POTATOES.**

The August 1 condition of this crop was 92 per cent of normal in northern Illinois, 88 per cent in central and southern Illinois, the State average being 89 per cent.

**BUCKWHEAT.**

A deficiency of 7 per cent in the area devoted to buckwheat this year as compared with 1904 is noted.

In the northern division of the State the August 1 condition of the crop is 96 per cent of a seasonable average, 94 per cent in the central division and 95 per cent in southern Illinois, an average condition for the entire State of 95 per cent.

**TURNIPS AND OTHER ROOT CROPS.**

In northern Illinois the area in turnips and other root crops is 98 per cent of that of last year, 93 per cent in central Illinois and 97 per cent in southern Illinois, the State average being 96 per cent.

The August 1 condition of these crops was 97 per cent in northern Illinois, 91 per cent in central Illinois and 93 per cent in southern Illinois, the State average being 94 per cent.

**TOBACCO.**

But two counties in northern Illinois report on this crop, JoDaviess and Winnebago, where its August 1 condition was 95 and 75 per cent of normal respectively.

In the southern division of the State, its August 1 condition was 90 per cent of normal.

No area is reported from central Illinois.

**CASTOR BEANS.**

The August 1 condition of castor beans was 90 per cent of a seasonable average, being 75 per cent in northern Illinois, 100 per cent in central Illinois and 95 per cent in southern Illinois.

**FIELD BEANS.**

In northern Illinois the August 1 condition of field beans was 98 per cent of normal, 96 per cent in central Illinois, 91 per cent in southern Illinois, the State average being 95 per cent.

**COW PEAS.**

The August 1 condition of this crop was 95 per cent of normal in northern and southern Illinois, and in central Illinois 104 per cent, giving a State average of 98 per cent.

**FRUIT.****Apples.**

The prospect for an apple crop is no more promising this year than last, the August 1 condition of the fruit being only 55 per cent of normal. The most encouraging condition is reported from central Illinois where it is 62 per cent of normal. Northern Illinois reports 57 per cent of normal and southern Illinois but 47 per cent.

Apples have been falling badly during the entire season, and they are also very wormy, so the quality of those maturing is not likely to be very good.

**Peaches.**

The most encouraging condition of peaches is reported from northern Illinois being 48 per cent. Central Illinois reports 37 per cent and southern Illinois 40 per cent, a State average of 42 per cent.

**Pears.**

A little more than half a crop of pears—59 per cent—was promised August 1. In northern Illinois the August 1 condition was 70 per cent of an average yield, 48 per cent in central Illinois and 58 per cent in southern Illinois.

"Blight" has been destructive to pears this year.

**Plums.**

About  $\frac{3}{4}$  of the usual crop of plums is anticipated this year. In northern Illinois their August 1 condition was 80 per cent of normal, in central Illinois 69 per cent and in southern Illinois 72 per cent.

**Grapes.**

The August 1 condition of grapes is reported as 88 per cent of normal. Northern Illinois reporting 95 per cent, central Illinois 87 per cent and southern Illinois 83 per cent.

**Blackberries.**

The blackberry crop this year was 94 per cent of an average yield.

In northern and central Illinois the yield was 93 per cent and in southern Illinois 97 per cent.

**Quinces.**

But few quinces are raised in Illinois, but their August 1 condition is encouraging for 73 per cent of the usual crop. In the northern division of the State it is 70 per cent of a seasonable average, in the central division 73 per cent and in southern Illinois 76 per cent.

**LIVE STOCK.**

Live stock generally has been in excellent condition this season, although there has been a little disease in some localities.

Pink-eye is reported from Macon and Crawford counties. Distemper in horses is reported from Will, Clark and Marion counties and spinal complaint has proved fatal to some horses in Winnebago.

Hogs are reported as dying in Morgan and Cass counties from some unknown cause and from cholera in Sangamon and Hamilton.

Flies have been very bad on all stock in JoDaviess county.

**DRAIN TILE.**

So far as can be ascertained there are now 728,607,143 feet of drain tile in the State, which gives an average of 26 feet to each acre of cultivated land in the State.

In northern Illinois the average number of feet per acre is 37, in central Illinois 26, while in the southern division of the State few counties average as much as 1 foot per acre.

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years, will be found to closely approximate the assessors' returns.

W. C. GARRARD,

Secretary.

# ILLINOIS CROP REPORT

FOR

## DECEMBER 1, 1905.

---

### SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE  
SPRINGFIELD, DECEMBER 1, 1906.

The information contained in this report as to the acreage of crops and number of head of live stock was obtained from the reports of assessors made to this Department as required by law.

The data in regard to yield per acre, price of crops and value of crops and live stock was obtained from crop correspondents, who number nearly six hundred, and represent every section of the State.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past twenty-eight years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

## CROP REPORT.

## WINTER WHEAT.

An increase of 2 per cent. is noted in the area seeded to wheat this fall, as compared with 1904, 1,417,000 acres being reported.

Northern Illinois reports 30,000 acres, Central Illinois 651,000 acres, and the southern division of the State 736,000 acres.

The December 1 condition of the growing crop is 95 per cent. of normal, an increase of 9 points over that of last year.

In the northern division of the State the condition is 94 per cent. of normal, in the central division 95 per cent., and 97 per cent. in the southern division.

Fly in early wheat is reported from Crawford and Fayette counties.

## RYE.

A decrease of 6 per cent. in the area seeded to rye, as compared with 1904, is noted, but 86,000 acres being reported.

Northern Illinois reports 72,000 acres, central Illinois 10,000 acres, and southern Illinois 4,000 acres.

The December 1 condition of the crop is 96 per cent. of normal, being 96 per cent. in northern Illinois, 98 per cent. in central Illinois, and 95 per cent. in the southern division of the State.

## CORN.

The area devoted to corn this year, 7,698,000 acres, is a little more than 2 per cent. less than in 1904, when 7,825,000 acres were reported.

The area in northern Illinois was 3,033,000 acres, in central Illinois 3,411,000 acres, and in the southern division of the State 1,254,000 acres.

The average yield per acre shows a decided increase over that of last year, being 40 bushels in northern Illinois, 43 bushels in central Illinois, and 34 bushels in the southern division, a State average of 40 bushels, compared to that of 36 bushels in 1904.

The total corn crop of the State in 1905 amounted to 309,316,000 bushels, of which 121,049,000 bushels were produced in northern Illinois, 145,742,000 bushels in central Illinois, and 42,525,000 bushels in the southern division of the State.

The ruling price of corn December 1 was 38 cents per bushel, the total value of the crop at this price being \$117,893,000.

Root lice injured corn in Knox, Hancock and Fayette counties. Grubs, cut and wire worms are reported from Boone, Warren, Winnebago, Adams, Hancock, Montgomery, Lawrence and Mercer counties.

Severe rain and wind storms injured the corn in Adams, Brown, Cass, Christian, Hancock, McDonough, Morgan, Pike, Schuyler, Scott, Madison, Pope, Richland, St. Clair and Washington counties.

The damage done to corn, however, was slight, the quality of the grain being excellent, 98 per cent. of normal.

The corn crop for 1905 is reported as a record breaker by our correspondents, with but few exceptions.

## CROP REPORT.

## BROOM CORN.

There was a deficiency of 31 per cent. in the area of broom corn as compared with 1904, but 9,034 acres being reported.

The average yield per acre, 667 pounds, was about normal, the total yield being 6,232,000 pounds.

The ruling price December 1 was \$86 per ton, the total value of the crop being \$268,241.

The following table gives the area, yield and value of the broom-corn crop of Illinois since 1876:

YEAR.	Acreage.	Av. yield per acre— lbs.	Total yield— lbs.	Price per ton.	Value of crop.

## CROP REPORT.

7

## SORGHUM.

A slight decrease in the area devoted to sorghum is noted this year, the total area being 4,959 acres, a decrease of 376 acres from the 1904 area. The average yield per acre was 83 gallons, making the total yield 413,502 gallons.

The ruling price December 1 was 45 cents per gallon. Had the entire product been sold at this price, it would have returned \$182,275 to the producer.

The following table gives the area, yield and value of the sorghum crops produced in the State since 1876:

YEAR.	Acreage.	Av. yield per acre— bushels.	Total number of bushels.	Price per bushels.	Value of crop.
1877.....	19,335	63	1,237,164	\$0 42	\$515,409
1878.....	14,638	80	1,174,549	45	528,547

## CROP REPORT.

## BUCKWHEAT.

The area devoted to buckwheat was about the same as 1904, being 2,133 acres. which produced 29,667 bushels, being an average yield of 14 bushels per acre.

The ruling price December 1 was 65 cents per bushel, making the estimated value of the crop \$19,389.

The following table gives the area, yield and value of the buckwheat crop in this State for the past twenty-nine years:

YEAR.	Acreage.	Av. yield per acre— bushels.	Total number of bushels.	Price per bushel.	Value of crop.
1877.....	15,880	13	207,693	\$0 73	\$151,612

## TIMOTHY SEED.

There were 64,625 bushels of timothy seed produced in 1905. The average price per bushel was \$1.75. The value of the crop at this price was \$111,784.

The following table gives the amount and value of the crop in this State since and including 1877:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	483,571	\$1 25	\$604,464
1878.....	261,559	1 25	326,949

## CROP REPORT.

## CLOVER SEED.

The amount of clover seed harvested this year was 29,913 bushels.

The average price per bushel, \$6.15, is the highest ever reported, and had the entire crop been sold at that price, it would have returned to the producer \$184,330.

In the following table will be found the yield and value of the crop of clover seed for 1905, as compared with the twenty-eight years preceding:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	64,686	\$4 80	\$310,493
1878.....	77,388	4 05	313,421

1905.....	29,913	6 15	184,330

## HUNGARIAN AND MILLET SEED.

There were 30,973 bushels of Hungarian and millet seed produced in 1905, quite an increase over 1904, when but 27,628 bushels were reported.

The ruling price December 1, of 70 cents a bushel, is lower than for several years, the value of the crop at this price being \$21,636.

The following table gives the yield and value of this crop since 1876:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	17,463	\$0 65	\$10,701
1878.....	26,787	55	14,733
1879.....	43,776	75	32,832
1880.....	66,889	70	46,752

1901.....	48,635	75	35,513
1902.....	40,529	88	35,695
1903.....	32,663	88	28,838
1904.....	27,628	95	26,296
1905.....	30,973	70	21,636

## BEANS.

Only 1,112 acres are reported as devoted to beans in 1905, the smallest acreage since 1892.

The average yield per acre was 12 bushels, the total yield being 13,467 bushels.

The total value of the crop is estimated at \$25,063, an average price per bushel of \$1.85.

The following table gives the area, yield and value of the 1905 crop of beans, together with those of twenty-eight years preceding:

YEAR.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	1,545	13	19,955	\$1 50	\$29,916

1905.....	1,112	12	13,467	1 85	25,063

## CASTOR BEANS.

The area devoted to castor beans is about the same as last year, 7,150 acres being reported.

The average yield per acre of 10 bushels is better than for several years past, the entire yield being 71,500 bushels.

The total value of the crop at the ruling price December 1, is \$90,178, an average price per bushel of \$1.25.

In the following table is given the area, yield and value of the twenty-nine crops of castor beans:

YEAR.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	4,503	3¾	17,538	\$1 10	\$18,512

## CROP REPORT.

## TOBACCO.

But 3,064 acres are reported as devoted to tobacco, of which 2,886 acres are in the southern division of the State.

The average yield per acre is 756 pounds, the total yield being 2,316,700 pounds.

The value of the crop is \$231,645, an average price per pound of 10 cents, the highest ever reported.

The following table gives the area, yield and value of the crop in this State since 1876:

YEAR.	Acreage.	Av. yield per acre— bushels.	Total number of pounds.	Price per pound.	Value of crop.
1877.....	12,320	640	7,885,586	\$0 08	\$638,848

## PASTURES.

A slight decrease in the area of pastures, as compared with 1904, is noted this year, 4,359,426 acres being reported.

The value per acre was \$4.20. In northern and central Illinois, where seven-eighths of the pasture lands are located, the value is \$4.50 and \$4.10 respectively, while in southern Illinois it is but \$3.10 per acre.

The total value of pastures this year was \$18,224,105.

The following table gives the area and value of pastures for twenty-nine years past:

YEAR.	Acreage.	Value per acre.	Value of crop.
1877.....	4,367,603	\$3 38	\$14,764,112

## VEGETABLES.

## IRISH POTATOES.

The area devoted to Irish potatoes in 1905 was 95,238 acres, the average yield per acre being 75 bushels.

The average price of 70 cents per bushel is much higher than in 1904, and the total value of the crop, 7,114,520 bushels, is \$4,924,681.

The following table gives the area, yield and value of the Irish potato crops of the State since 1859:

YEAR.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

## SWEET POTATOES.

The area devoted to sweet potatoes is about the same as in 1904, 3,611 acres being reported.

The total yield was 325,066 bushels, an average of 90 bushels per acre.

The ruling price December 1 was 63 cents per bushel, the total value of the crop being \$221,931.

The following table gives the area, yield and value of the sweet potato crop of the State for the past twenty-nine years:

YEAR.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	2,355	63	148,270	\$0 85	\$126,092

## TURNIPS AND OTHER ROOT CROPS.

A decrease of 4 per cent. is reported in the area devoted to turnips and other root crops this year, as compared with 1904, but 474 acres being reported.

The average value per acre is \$172.11, and the total value \$81,580.

The average yield of turnips per acre was 104 bushels.

The following table gives the acreage and value of turnips and other root crops grown in the State during the past twenty-nine years:

YEAR.	Acreage.	Value per acre.	Value of crop.
1877.....	7,056	\$39 55	\$279,136

## OTHER CROPS NOT NAMED.

There are a number of crops raised in this State which are cultivated only in limited localities and are not of sufficient importance to be tabulated alone, but are of considerable value to producers. The value of these miscellaneous crops in 1905 was estimated at \$161,605. These crops are raised for market almost exclusively in northern Illinois, which reports the value of same \$152,640, the remainder being nearly equally divided between the other two sections of the State.

## FRUIT.

## APPLES.

The apple crop of Illinois for 1905 was the smallest ever produced, being only 248,372 bushels. Of this amount, 117,304 bushels were produced in northern Illinois, 49,452 in central Illinois, and 81,616 bushels in the southern division of the State.

The average price per bushel on December 1 was \$1.15, making the total value of the crop \$291,441.

The following table gives the number of bushels of apples and the value of the crops since 1876:

YE&R.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	5,395,351	\$0 80	\$4,316,281
1878.....	4,940,811	65	3,211,527

## PEACHES.

The peach crop of Illinois was the smallest ever produced, being only 12,405 bushels, 11,488 bushels of which were raised in southern Illinois.

The average price was 90 cents a bushel, giving a total valuation of \$10,938.

The following table gives the quantity and value of the peaches produced in the State during the past twenty-nine years:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	402,587	\$0 92	\$370,280
1878.....	607,292	62	376,521

1904.....	30,721	87	26,892
1905.....	12,405	90	10,938

## PEARS.

There were but 2,612 bushels of pears produced in 1905, a decrease of 50 per cent as compared with 1904.

Northern Illinois reports 377 bushels, central Illinois 239, and southern Illinois 1,996 bushels.

At the average price of 90 cents per bushel, the total value of the crop is \$2,360.

The following table gives the extent and value of the pear crop of the State since and including 1877:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877.....	16,318	\$1 35	\$22,704
1878.....	13,510	1 25	16,887
1879.....	6,134	1 55	9,508
1880.....	35,724	1 30	46,428

1903.....	4,880	93	4,559
1904.....	5,376	80	4,280
1905.....	2,612	90	2,360

## GRAPES.

There were 928,078 pounds of grapes produced in 1905. Of this quantity 135,119 pounds were grown in northern Illinois, 326,994 pounds in central Illinois, and 465,965 pounds in the southern division of the State.

The ruling price of 2 cents per pound gives a total valuation of \$21,030.

The following table gives particulars concerning the grape crop of the State for the past twenty-nine years:

YEAR.	Pounds produced.	Price per pound.	Value of crop.
1877.....	3,002,748	\$0 08	\$92,782
1878.....	1,322,636	03	57,679

1905.....	928,078	02	21,030

## WINE.

The area in vineyards this year, 946 acres, is 6 per cent. less than in 1904.

There were 93,202 gallons of wine produced, being an average of 99 gallons per acre.

Most of the wine produced in Illinois comes from the central division of the State, which produced 67,700 gallons of the 93,202 gallons produced in the State.

The average price per gallon was 65 cents, the total value of the product at this price being \$58,335.

The following table gives the number of gallons of wine and the value thereof during the past twenty-nine years:

YEAR.	Acreage.	Av. yield per acre— gallons.	Number of gallons produced.	Price per gallon.	Value of crop.
1877.....	2,612	61	158,944	\$1 20	\$191,933
1878.....	5,178	27	142,964	1 20	171,567

1901.....	548	275 00	149,628
1902.....	482	313 81	151,257
1903.....	328	344 00	112,848
1904.....	1,478	72 00	105,821
1905.....	308	278 00	85,621

## STRAWBERRIES.

The value of the strawberry crop of 1905 was not quite so great as that of last year, \$36,623 being reported, of which \$19,461 was reported from northern Illinois, \$1,737 from central Illinois, and \$15,425 from the southern division of the State.

## WATERMELONS.

There was a small decrease in value of watermelons sold in 1905.

The value of melons sold in northern Illinois was \$14,964, in central Illinois \$5,743, and in the southern division of the State \$2,785, a total value of \$23,492.

## BEES AND HONEY.

There were 421,724 pounds of honey produced in 1905.

The average price obtained for that sold was 13 cents per pound, making the total value \$56,197.

The total number of hives of bees reported for 1905 was 56,434.

The following table gives the amount and value of honey produced in this State during the past fourteen years, together with the number of hives of bees:

YEAR.	Pounds produced.	Price per pound.	Value of product.	Number of hives of bees.
1891.....	821,678	\$0 14	\$112,934	120,252
1892.....	575,356	14	83,294	81,928
1893.....	571,836	14	83,131	57,710
1894.....	542,796	14	76,782	70,113
1895.....	427,667	13	56,534	50,760
1896.....	433,043	13	55,900	43,411
1897.....	567,639	12	66,672	53,810

1904.....	630,688	14	87,283	57,753
1905.....	421,724	13	56,197	56,434

## LIVE STOCK.

## HOGS.

According to the assessors' returns there were 2,515,894 hogs in the State May 1, 1905. At the equalized value of \$1.11 per head, they were worth \$2,792,642.

The number marketed was 2,088,182, or about 83 per cent. of the entire number.

The average weight of those marketed was 217 pounds, giving a total gross weight of 452,635,320 pounds.

The average price of hogs was better than last year, those marketed averaging \$4.85 per cwt., their value at this rate being \$22,012,700.

The supply of hogs on hand December 1, 1905, is 93 per cent., and the average price per cwt. on that date \$4.40.

Hog cholera was reported from Boone, DuPage, Henry, Lee, Adams, Cass, Champaign, Christian, Fulton, McDonough, Morgan, Scott, Monroe Randolph and Richland counties.

The following table gives the number of hogs assessed and marketed in 1905 as well as their weight and value, for the last fifty years:

YEAR.	Assessors' Returns.		Estimated per cent. marketed.	Number fat hogs marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value hogs marketed.
	Number.	Value.						
1856.....	1,596,903	\$3,375,247	70	1,117,532	262	292,871,984	\$4 75	\$13,911,420

## BEEF CATTLE.

The number of cattle in the State May 1, 1905, according to the assessors' returns, was 2,301,519.

At the equalized value of \$4.43 per head, they are worth \$10,195,729.

About 23 per cent. of the whole, or 529,341 were marketed during the year. Their average weight was 1,070 pounds, making their total weight 566,182,735 pounds.

The average price of those sold prior to December 1 was \$4.15 per cwt., giving a total value of \$23,498,026.

The supply of beef cattle on hand December 1 is 92 per cent. of the supply one year ago, and the average price per cwt. on that date was \$3.85.

Black-leg is reported among cattle in Mercer, Champaign, Christian and Scott counties. In the latter county vaccination is reported as being successful in saving cattle thus affected.

Pink-eye is reported from Henry county, abortion among calves from Greene county, and quite a loss of cattle in the western part of Lake county from anthrox.

The following table gives the number, weight and value of the cattle marketed in the State since 1855:

DATE.	Assessors' Returns.		Estimated per cent marketed.	Number beef cattle marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value beef cattle marketed.
	Number.	Value.

## DAIRY COWS.

There were 613,309 cows reported in Illinois in 1905.

The average value per head was \$37, and the total value \$22,498,034.

The following table gives the number and value of the dairy cows kept in Illinois since 1878:

YEAR.	Number.	Av. value per head.	Total value.
1879.....	571,628	\$31 00	\$17,720,468
1880.....	613,738	31 00	19,035,878

## SHEEP.

Fewer sheep were reported by assessors this year than ever before, only 425,824.

Their equalized value per head is 73 cents, making their total equalized value \$310,851.

Of the number assessed, 22 per cent., or 93,629, were marketed, their average gross weight being 108 pounds, and the total gross weight 10,125,227 pounds.

The average price received for those marketed prior to December 1 was \$4.45 per cwt., making their total value \$451,746.

The supply of sheep on hand December 1, 1905, as compared with the same date last year, was 88 per cent., and the average price per cwt. on that date \$4.45.

The following table gives the number, weight and value of the sheep marketed in the State since 1855:

YEAR.	Assessors' Returns.		Estimated per cent marketed.	Number fat sheep marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value sheep marketed.
	Number.	Value.

## WOOL.

The wool clip of 1905 was unusually small, only 1,812,181 pounds being shorn.

The average price obtained for it, 26 cents a pound, has not been equalled since 1883.

The total value at this price amounted to \$476,931.

The following table gives the number of pounds shorn, the price per pound, and the total value of the wool clip for the last twenty-nine years:

YEAR.	Number pounds shorn.	Price per pound.	Total value.
1877.....	3,291,677	\$0 30	\$987,503
1878.....	2,891,087	25	722,752

#### HORSES.

The number of horses reported by assessors this year is 1,095,907, and their equalized value is \$12.80 per head, making their total value \$14,027,610.

The number of colts foaled in 1904 was 79,976, being the largest number reported since 1894.

Distemper was reported from Vermilion, Edwards and Hardin counties.

The following table gives the number of horses assessed in the State since 1855, and their equalized valuation, as well as the number of colts foaled each year since 1878:

YEAR.	Assessors' Returns.		Number colts foaled.

## DAIRY PRODUCTS.

## MILK.

There were 103,275,135 gallons of milk sold in Illinois in 1905.

The average price was 15 cents per gallon, and the total value \$15,402,536.

The following table gives the amount, price and value of the milk sold in the State the last twenty-nine years:

YEAR.	Gallons sold.	Price per gallon.	Total value.
1877.....	17,124,506	\$0 11 1-6	\$1,912,236
1878.....	30,567,415	10½	3,209,579

## CREAM.

There were 1,234,518 gallons of cream sold in the State the past year.

The average price per gallon was 60 cents, and the total value \$781,698.

The quantity and value of the cream sold in the State since 1876 is given in the following table:

YEAR.	Gallons sold.	Price per gallon.	Total value.
1877.....	2,744,259	\$0 55	\$1,509,342
1878.....	62,707	52	32,608

## BUTTER.

The quantity of butter reported sold in 1905 was 13,447,659 pounds.

The average price received per pound was 22 cents, and the total value of butter sold during the past year \$2,900,153.

In the following table will be found the quantity and value of the butter sold in Illinois during the past twenty-nine years:

YEAR.	Pounds sold.	Price per pound.	Total value.
1877.....	18,970,227	\$0 20	\$3,794,045
1878.....	17,997,652	15	2,699,648

## CHEESE.

There were 596,716 pounds of cheese sold in 1905.

The average price per pound, 15 cents, was a little better than that received the previous year, the total value being \$87,457.

The following table shows the quantity and value of the cheese sold in the State since 1876:

YEAR.	Pounds sold.	Price per pound.	Total value.
1877.....	4,502,671	\$0 12	\$540,320
1878.....	5,139,914	10	513,691
1879.....	6,618,212	13	860,367
1880.....	6,187,680	13	803,398
1881.....	5,837,974	15	875,696

1896.....	1,912,120	11	203,744
1897.....	1,367,253	11	147,382
1898.....	1,198,169	12	139,202
1899.....	2,096,381	12	261,838
1900.....	762,010	15	113,807
1901.....	772,286	14	107,911
1902.....	725,087	14	100,102
1903.....	476,975	13	64,647
1904.....	553,881	14	79,611
1905.....	596,716	15	87,457

Tables published elsewhere in this report give by counties the quantity and value of the dairy products of the State for 1905.

#### POULTRY AND EGGS.

The value of the poultry sold in the State in 1905 was 3 per cent. greater than that of the previous year, being \$1,493,580.

In northern Illinois \$895,728 was reported, in central Illinois \$387,499, and in the southern division of the State \$210,353.

The value of the eggs sold in the State in 1905 was 5 per cent greater than in 1904.

Northern Illinois reports \$798,244, central Illinois \$310,391, and southern Illinois \$346,634.

#### GENERAL FARM NOTES.

Cucumber industry is reported from Kendall county.

Potatoes rotted quite badly in Lake county in 1905.

## SUMMARY.

The following table gives in small space the value of the principal farm products and live stock of Illinois for the year 1905:

Corn .....	\$117,893,228
Winter wheat .....	17,033,090
Spring wheat .....	1,056,173
Oats .....	32,769,803
Rye .....	945,160
Barley .....	351,034
Buckwheat .....	19,389
Hay .....	23,212,759
Timothy seed .....	111,784
Clover seed .....	184,330
Hungarian and millet seed.....	21,636
Irish potatoes .....	4,924,681
Sweet potatoes .....	221,931
Turnips and other root crops.....	81,580
Broom-corn .....	268,241
Sorghum .....	182,275
Beans .....	25,063
Castor Beans .....	90,178
Tobacco .....	231,645
Other crops not named.....	161,605
Apples .....	291,441
Peaches .....	10,938
Pears .....	2,360
Grapes .....	21,030
Strawberries .....	36,623
Watermelons .....	23,492
Other fruits and berries.....	85,621
Wine .....	58,335
Honey .....	56,197
*Horses (equalized value).....	14,027,610
*Beef cattle (equalized value).....	10,195,729
Dairy cows .....	22,498,034
*Hogs (equalized value).....	2,792,642
*Sheep (equalized value).....	310,851
Wool .....	476,931
Milk sold .....	15,402,531
Cream sold .....	781,698
Butter sold .....	2,900,153
Chese sold .....	87,457
Poultry sold .....	1,493,580
Eggs sold .....	1,455,269
Total .....	\$272,794,107

\*Note.—The equalized value as fixed by the State Board of Equalization, represents but one-fifth of the actual value.

## AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent., is recorded 110; a decrease of five per cent. is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years, will be found to closely approximate the assessors' returns.

W. C. GARRARD,  
*Secretary.*

If the crop had been sold at prevailing prices December 1, it would have returned this amount to the producer.

## NAMES AND POSTOFFICE ADDRESSES

—OF—

# CROP CORRESPONDENTS

STATE BOARD OF AGRICULTURE,

FOR THE YEAR 1905.

WITH DATE OF APPOINTMENT.

### ADAMS COUNTY—

- 1879, G. W. Dean, R. F. D. No. 1,  
Adams.  
1883, H. C. Cupp, Fall Creek.  
1888, C. H. Rankin, Fall Creek.  
1904, A. R. Wallace, Jr., Camp Point.

### ALEXANDER COUNTY—

### BOND COUNTY—

- 1885, J. B. Denny, Sorento.  
1885, W. H. Taylor, Greenville.  
1898, L. E. Alexander, Reno.  
1903, J. T. Duffy, Sorento.  
1904, A. O. Donnell, Greenville.

### BOONE COUNTY—

- 1877, George Reed, Belvidere.  
1899, O. S. Cohoon, Belvidere.

### BROWN COUNTY—

- 1889, W. B. Rigg, Mt. Sterling.  
1889, C. J. Davis, Limewell.

### BUREAU COUNTY—

- 1897, O. W. Mason, Buda.  
1904, W. Scott Martin, La Moille.

### CALHOUN COUNTY—

- 1881, M. A. Kamp, Kampsville.

### CARROLL COUNTY—

- 1899, Henry Daehler, Chadwick.  
1899, Jacob Grossman, Lanark.  
1900, J. M. Carroll, Argo.

### CASS COUNTY—

- 1878, John Beggs, Ashland.  
1896, W. W. Matthew, Ashland, R.  
R. No. 2.  
1903, M. L. Crum, Virginia.  
1904, G. J. Armstrong, Chandlerville.

### CHAMPAIGN COUNTY—

- 1877, W. A. Conkey, Homer.  
1885, W. E. Dawley, Seymour.

### CHRISTIAN COUNTY—

- 1877, John W. Hunter, Pana.  
1877, A. B. Herdman, Morrisonville.  
1878, O. S. Nash, Sharpsburg.  
1897, Basil Hill, Edinburg.  
1904, Earl White, Morrisonville.

### CLARK COUNTY—

- 1877, F. B. Ennis, R. F. D. No. 4,  
Martinsville.  
1877, R. R. Scott, Casey.  
1880, Jerry Ishler, Martinsville.  
1900, Wilfred Shaw, Darwin.

### CLAY COUNTY—

- 1891, Edgar Hayes, Iola.  
1902, Israel Mills, Clay City.  
1904, Leslie F. Brissenden, Flora.  
1904, T. O. Pierce, Xenia.  
1904, Jno. T. Campbell, Louisville.

### CLINTON COUNTY—

- 1890, John B. Heimann, Damiansville.  
1901, Frank Bassler, Trenton.

### COOK COUNTY—

- 1880, E. Wheeler, Arlington Heights.

### COLES COUNTY—

- 1905, John W. Black, Humboldt.  
1905, James A. Walker, Lerna.  
1905, E. E. Boyer, Ashmore.

### CRAWFORD COUNTY—

- 1877, William L. Heustis, Robinson.  
1882, William Wood, Oblong.  
1897, W. M. Hart, Annapolis.  
1900, Clinton Newlin, Hutsonville.  
1900, D. H. Newlin, Hutsonville.

## CUMBERLAND COUNTY—

- 1882, Jas. M. Albin, Neoga.
- 1887, David B. Green, Toledo.
- 1897, J. L. Mattoon, Greenup.

## DE KALB COUNTY—

- 1905, Wm. A. Dennis, Sandwich.
- 1905, A. J. Plapp, Malta.

## DE WITT COUNTY—

- 1882, W. R. Carle, Wapella.
- 1897, W. H. Oglevee, Clinton.
- 1898, C. E. Robb, Clinton.

## DOUGLAS COUNTY—

- 1887, William Iles, R. F. D. No. 6, Tuscola.
- 1892, Perry N. Howe, R. F. D. No. 3, Tuscola.
- 1897, J. S. Campbell, Tuscola.
- 1902, E. E. Senteney, Arcola.

- 1901, E. E. Bishop, Piper City.

## FRANKLIN COUNTY—

- 1889, Wm. Browning, Zeigler.
- 1889, John A. Coleman, Frankfort.
- 1896, M. N. Webb, Benton, R. R. No. 2.
- 1904, W. B. Martin, Benton.
- 1904, C. M. Upchurch, Ewing.
- 1905, J. F. Ice, Frankfort.

## FULTON COUNTY—

- 1878, John Prickett, Lewistown.
- 1885, E. J. Parry, Astoria.
- 1901, W. P. Frazier, Fairview.
- 1902, C. W. Craft, Vermont.
- 1903, C. E. Shick, Vermont.
- 1904, Abram Wilson, Fairview.

## GALLATIN COUNTY—

- 1889, John M. Bowling, Equality.

## GREENE COUNTY—

- 1877, S. G. Russell, Bluffdale.
- 1902, L. E. Prindle, Roodhouse.
- 1905, F. E. Baker, Whitehall.

## GRUNDY COUNTY—

- 1891, F. Dirst, Minooka.
- 1892, Louis Germain, Gardner.
- 1892, Wm. Reardon, Morris.

## HAMILTON COUNTY—

- 1887, Geo. K. Edwards, McLeansboro.
- 1889, J. D. Lockwood, Braden.
- 1899, J. M. Weldin, McLeansboro.

## HANCOCK COUNTY—

- 1877, E. J. Baxter, Nauvoo.
- 1885, C. M. McMillan, Carthage, R. No. 2.
- 1885, W. A. Moore, R. F. D. No. 2, Carthage.
- 1891, C. S. Campbell, La Harpe.

## HARDIN COUNTY—

- 1892, John Gross, Grossville.

## HENDERSON COUNTY—

- 1898, D. A. Whiteman, Biggsville.

## HENRY COUNTY—

- 1877, N. C. Gilbert, Geneseo.
- 1877, John A. Widney, Alpha.
- 1889, Horace S. Gilbert, Geneseo.

## IROQUOIS COUNTY—

- 1879, Robert Caldwell, Sheldon.
- 1897, Herman Salmon, Milford, R. R. No. 2.
- 1897, Peter Wright, Clifton.

## JACKSON COUNTY—

- 1904, H. G. Easterly, Carbondale.
- 1904, Peter Griffith, Murphysboro.

## JASPER COUNTY—

- 1876, W. E. Barrett, Lis.
- 1876, A. Wilson, Wheeler.
- 1892, W. W. Kibler, Hunt City.
- 1902, W. A. Kibler, R. F. D. No. 2, Rose Hill.

## JEFFERSON COUNTY—

- 1879, E. S. Noleman, R. F. D. No. 2, Centralia.
- 1897, A. J. Cook, Opdyke.

## JERSEY COUNTY—

- 1884, John G. Dougherty, Otterville.
- 1891, M. C. Stanley, Jerseyville.
- 1891, Wm. Lawler, Nutwood.
- 1891, Jas. M. Segraves, Beltrees.

## JO DAVIESS COUNTY—

- 1885, Geo. W. Pepoon, Warren.
- 1904, W. G. Curtiss, Stockton.

## JOHNSON COUNTY—

- 1880, J. F. Buncomb, Ozark.
- 1882, P. W. McFatridge, Pond.
- 1886, S. P. Thacher, Ozark.
- 1894, Thos. B. Gore, Elvira.

## KANE COUNTY—

- 1882, Daniel Whitney, Wasco.
- 1884, George E. Peck, Geneva.
- 1894, L. E. Bartlett, Elburn.

## KANKAKEE COUNTY—

- 1885, Eugene Mathers, Momence.
- 1885, Wm. V. States, Buckingham.
- 1892, O. W. Barnard, Manteno.

## KENDALL COUNTY—

- 1896, C. C. Hoge, Newark.
- 1900, D. F. Palmer, Yorkville.
- 1900, Herman A. Grimwood, Bristol, R. R.
- 1902, J. A. Gale, Yorkville.
- 1877, Geo. M. Hollenbeck, Aurora.

## KNOX COUNTY—

- 1885, J. F. Latimer, Abingdon.
- 1894, Joseph W. Miles, Appleton.

## LAKE COUNTY—

- 1878, Henry Hart, Bound Lake.
- 1889, J. A. Mason, Prairie View.

## LA SALLE COUNTY—

- 1877, Thomas J. Davis, R. F. D. No. 31, Mendota.
- 1883, L. A. Burgess, Tonica.
- 1883, C. A. Whitney, Lstant.
- 1884, W. B. Rockwood, Sheridan.
- 1898, J. L. Armstrong, Seneca.

## LAWRENCE COUNTY—

- 1887, D. S. Porter, Lawrenceville.
- 1882, J. A. Fyffe, Sumner.
- 1903, W. E. Neal, Lawrenceville.
- 1903, Wm. McAndrew, Vincennes, Ind.

## LEE COUNTY—

- 1892, Austin A. Powers, Prairieville.
- 1895, Ira R. George, Ashton.
- 1904, Jno. C. McCleary, R. F. D. No. 1, Dixon.
- 1904, W. L. Sheap, Franklin Grove.

## LIVINGSTON COUNTY—

- 1889, Austin Gibbons, Dwight.
- 1891, W. H. Roth, Pontiac.
- 1892, Marion Gallup, Pontiac.
- 1896, H. J. Meis, Saunemin.

## LOGAN COUNTY—

- 1883, John Harmon, Beason.
- 1887, T. S. King, Lincoln.
- 1893, Z. K. Wood, Mt. Pulaski.

## MACON COUNTY—

- 1877, T. H. Barr, Maroa.
- 1877, G. Elliott, Decatur.
- 1885, S. P. Nickey, Oakley.
- 1894, C. A. Thrift, R. F. D. No. 2, Decatur.
- 1899, Cassius Holcomb, Oakley.

## MACOUPIN COUNTY—

- 1877, John P. Henderson, Virden.
- 1877, I. B. Vancil, Modesto.
- 1885, George W. Ribble, Hettick.
- 1900, Geo. W. Denby, Nilwood.

## MADISON COUNTY—

- 1877, Irby Williams, Bethalto.
- 1885, J. M. Pearson, Godfrey.
- 1887, Jos. Chambers, Godfrey, R. R. No. 2.
- 1904, W. P. Sweeny, St. Jacob.

## MARION COUNTY—

- 1892, W. S. Ross, Alma.
- 1892, W. J. Stiles, Sandoval.

## MARSHALL COUNTY—

- 1832, H. Marshall, Searland.
- 1890, J. A. Williams, Henry.
- 1890, T. W. Stoner, Henry.

## MASON COUNTY—

- 1882, Wm. M. Duffy, Havana.
- 1885, J. A. McComas, Manito.
- 1888, E. J. Mell, San Jose.
- 1898, J. C. Lynn, Teheran.
- 1903, H. A. Beckwith, Kilbourne.

## MASSAC COUNTY—

- 1832, J. R. Wetherill, Metropolis.

## McDONOUGH COUNTY—

- 1877, James N. Devore, Bushnell.
- 1877, Samuel Frost, Macomb.

## McHENRY COUNTY—

- 1839, Wm. A. Carmack, Harvard.
- 1899, Geo. A. Hunt, Hebron.
- 1900, G. B. Richards, Woodstock.

## McLEAN COUNTY—

- 1877, C. R. Ewins, Danvers.
- 1832, D. F. Trimmer, Lexington.
- 1903, G. W. Hiser, Lexington.
- 1903, S. R. Hiltz, Towanda.
